RESOLUTION

(TRADING BY FOREIGNERS)

The following papers regarding the resumption of trade relations with Germany are published for general information.—

1 *Letter from the Government of Bengal, No 7-T-Com., dated the 7th May 1920, and enclosure*

No 7-T-Com, dated the 7th May 1920

From—THE HON'BLE MR A. MARR, I.C.S., Secretary to the Government of Bengal, Darjeeling

To—The Secretary to the Government of India, Department of Commerce, Simla

I am directed to submit, for the information of the Government of India, a copy of a letter No 11-C M 6-1920, dated the 16th April 1920 from the Secretary, Calcutta Trades Association, on the question of trading with German firms.

2 As the question of policy affects the whole of British India, it is desirable that the Government of India should make an authoritative pronouncement on the subject The general question of post-war trade with our late enemies was discussed in this Government's letters Nos. 414-T-Com., dated the 26th September 1917 and 495Com., dated the 21st January 1918, but there have doubtless been subsequent developments of which the Governor in Council is not aware

No. 11-C M 6-1920, dated the 16th April 1920.

From—The Secretary, Calcutta Trades Association, Calcutta.

To—The Chief Secretary to the Government of Bengal.

At a regular meeting of the Committee of the Calcutta Trades Association, held on Friday the 9th April 1920, the question of trading with German firms was raised by one of the members.

It would appear that firms in Germany are now offering agencies for German goods, that I have been directed to ascertain the views of Government as to the desirability of the resumption of trade relationship with Germany.

The vexed question has, it is understood, been freely debated upon in England, and the reply given by the President of the Board of Trade was to the effect that Great Britain required German purchasing power, and that it was the view of His Majesty's Government that Germany must be set on her feet again

As, however, conditions in India may be somewhat different, before members of this Association enter into business negotiations with German firms, they consider that the feeling of the Government of India on this point should be made publicly known, so that trade relationship with Germany may be resumed without fear of arousing public feeling

2. *Letter to the Government of Bengal, No. 3144, dated the 17th June 1920.*

No. 3144, dated the 17th June 1920.

From—R. B. EWBANK, ESQ., I.C.S., Deputy Secretary to the Government of India, Department of Commerce.

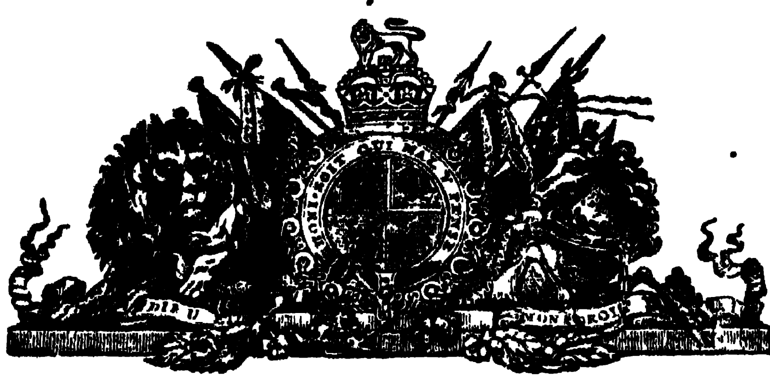

To—The Secretary to the Government of Bengal, Commerce Department.

I am directed to acknowledge the receipt of your letter No 70-Com., dated the 7th May 1920, forwarding, for the information of the Government of India, a copy of a letter from the Secretary, Calcutta Trades Association, on the subject of the resumption of trade relationships with Germany. You suggest that, as the question of policy thus raised affects the whole of British India, it is desirable that the Government of India should make an authoritative pronouncement on the subject.

2. In reply I am to say that an authoritative pronouncement on the subject has already been made by His Excellency the Viceroy in his speech on the 8th January last when he opened the Conference of the Chambers of Commerce in India and Ceylon, and I am also to invite a reference to this Department's notification No 1368-D, dated the 21st February 1920, republishing certain notes issued by the Board of Trade on trading conditions with certain countries. From this notification it will be seen that 'it is no part of the policy of His Majesty's Government to discourage British traders from competing in the markets of the late enemy countries and it is desirable that British traders should make every effort to secure a proper footing in Central Europe.' The Government of India have already announced their intention of excluding Germans from India for a period of five years from the date of the conclusion of the war, but though they do not propose to allow Germans to handle trade in India for this period, there is no objection to firms in this country resuming trade relationships with German firms. The attention of the Trades Association, however, should be drawn to the two provisos to the General Trading License published under the authority of the Governor General in Council on the 2nd August 1919, which provisos are still in force.

ORDERED that a copy of the above Resolution be forwarded to all Local Governments and Administrations, the Director General of Commercial Intelligence, the Chambers of Commerce, Trades Associations, the Indian Trade Commissioner, London, and His Majesty's Trade Commissioner in India, for information, and that it be published in the Supplement to the *Gazette of India*.

Rules under the Village Self-Government Act, 1919, regarding assessment and collection of the union rate.

ASSESSMENT AND IMPOSITION OF THE UNION RATE

1 After preparing the annual budget estimate in Account Form No 1 and not less than two months and a half before the first day of the year to which the budget relates, the union board at a meeting shall proceed to assess the union rate provided in the estimate according to the circumstances and the property within the union of the persons liable to assessment

2 The union board shall first prepare, village by village and in Form No. 1, a list of all persons owning or occupying buildings in the union, either permanently or temporarily, showing their trade, business, etc., and their estimated annual income within the union All such persons shall be included in the list, even if some are subsequently exempted

3 The board shall determine the total assessable income of the person concerned after considering his debts and liabilities, if any.

4. Government or any local authority or company owning or occupying buildings in the union may be assessed in consideration of the value of the total property which the Government or such authority or company may posses within the Union.

Provided that the total amount of the rate annually payable by Government or such authority or company to the union board shall not exceed the maximum of Rs. 84.

NOTE.—Railway companies are not liable to payment of the union rate until they are notified as liable under section 135, Indian Railways Act

5 A person liable to pay the rate, but not living in the union, shall be assessed only on the land which he actually holds, or on the income which he may actually derive from property or business in the union.

6. The assessment list prepared as aforesaid shall be approved by the union board at a meeting and so much of it as appertains to each village in the union shall be published in a conspicuous place in that village at least two months before the commencement of the year.

7 The union board at a meeting shall hear and decide any objections to the assessment list made within three weeks after the publication of the list. A note shall be kept of such orders as are passed in the minute book of the board.

8 After the expiry of the period of three weeks mentioned in rule 7 the president of the union board shall send to the circle officer a duplicate copy of the assessment list together with a copy of the budget and a certificate stating the dates on and the places at which the assessment list was published.

9 Upon receipt of the assessment list, the circle officer shall see—

(*a*) that the list has been signed by all the members and the publication has been certified;

(*b*) that the estimate of the union rate as provided in the budget has been correctly arrived at, and

(*c*) that in estimating the rate the balance in hand from the previous year has been allowed for.

If the circle officer thinks that the assessment made is inequitable, or is in excess of the legal requirements for the year, or will fall short of them he will report to the District Magistrate who may direct the union board to revise the assessment, and the board shall prepare a revised list accordingly.

10 The assessment list after being checked by the circle officer, or the revised list, if any prepared under rule 9, shall be published by the union board in the manner laid down in rule 6, if possible before the first day of the year and if not as soon as possible thereafter.

11 If any person mentioned in the assessment list ceases at any time after the publication thereof under rule 10 to occupy any building in respect of the occupation of which he has been assessed, or if the means and property in respect of which he has been so assessed are reduced, the union board at a meeting may exempt him from assessment or revise the same, and such exemption or revision shall take effect from such date as the board may direct.

12 The union board at a meeting may at any time after the publication of the assessment list under rule 10 and after giving previous notice of not less than a week, assess any person who was without authority omitted from the list, or whose liability to assessment has accrued thereafter, and may enhance any assessment which may appear to it to be inadequate and to have been so made owing to mistake or fraud. Any assessment or enhancement made under this rule shall take effect from the beginning of the quarter in which such assessment or enhancement is made or from the date when the liability to assessment accrued, whichever may be later.

13 The union board may, at any time, after giving previous notice of not less than a week, substitute for any name mentioned in the assessment list the name of any new owner or occupier of a building, and may assess the rate on such person, and such person shall be liable to pay such assessment from the first day of the quarter in which such person's name was substituted in the assessment list, or from the date on which the change of ownership or occupation occurred, whichever may be later.

METHOD AND TIME OF PAYMENT OF UNION RATE

14 The union rate shall be payable in equal quarterly instalments. The instalment of the rate on account of each quarter shall be due on the first day of such quarter:

Provided that in the case of an assessment under rule 12 or rule 13, the first instalment shall be due on the date on which such assessment is made known to the assessee.

15 The union board at a meeting may appoint one or more persons, who may be members of the board, to receive and collect the rate. The rate may also be paid at the office of the union board. The board shall declare by notification to be posted up in its office at what hours the office shall be open for the receipt of money.

16 Every person liable to pay any sum assessed upon him under these rules shall, within fifteen days from the date on which the said sum becomes due, pay or tender such instalment to the person or member appointed in that behalf under rule 15 or at the office of the union board.

17. For all sums paid on account of the rate a receipt shall be given in Form No. 2.

NOTE.—An estimate shall be made of the number of receipt forms likely to be required for a year's consumption and the complete year's supply shall bear consecutive printed numbers and shall be stitched in books of 100 each. The president shall stamp every receipt with the seal of the union board and keep the books in his personal custody. He shall keep an account of the books he issues and see that they are returned as soon as they are used up. The surplus forms shall be destroyed at the end of the year.

DISTRAINT AND SALE OF MOVABLE PROPERTY OF DEFAULTER.

18. Immediately after the 15th day from the date on which the instalment payable becomes due the union board shall prepare a list of the persons who may have failed to pay their respective instalment of the rate for such quarter, showing the amount due from each of such defaulters, and so much of it as appertains to each village shall be published in a conspicuous place in that village.

19. If any of the defaulters shall not, within 15 days of the publication of the list under rule 18, pay the sum due, or show to the union board sufficient cause for not paying the same the president, or, if so directed by him, the vice-president, shall cause the chaukidar or any other person authorised in writing by the president or the vice-president to levy by the distraint and sale of a sufficient portion of the movable property of the defaulter, except plough-cattle and tools and implements of trade and agriculture, the amount of his arrear, together with a sum equal to half the amount of such arrear, by way of penalty:

Provided that when the movable property distrained is shown to the satisfaction of the union board to have been left in the building for repairs or safe custody in the ordinary course of business, it shall be released.

20. Distress shall be made by actual seizure of movable property and the officer charged with the execution of the distraint and sale shall be responsible for the due custody thereof.

21. Such officer shall give not less than ten days' previous notice of the sale and of the time and place thereof by beat of drum:

Provided that if the property distrained is of a perishable nature, it may be sold at once with the consent of the defaulter, or without such consent at any time after the expiry of six hours from the seizure.

22. If the sum due be not paid with the penalty referred to in rule 19 before the time fixed for the sale, the movable property seized shall be sold by auction at the time and place specified in the most public manner possible, and the proceeds shall be applied in the discharge of the sum due, including the penalty. Two members of the board shall be present at every such sale.

23. No property shall be sold to any member or servant of the union board.

24. The surplus sale proceeds shall be returned to the defaulter, or, in his absence, credited to the union fund to be paid thereafter on demand to any person who establishes his right to the satisfaction of the union board.

25. A record of all proceedings taken under rule 18, *et seq.*, shall be made and preserved in the minute book of the union board.

26. The union board shall cause a regular account to be kept of all distresses levied and sales made for the recovery of the union rate.

FEES, ETC, FOR SUMMONING AND ATTENDANCE OF WITNESSES

7. (1) No fees shall be charged in respect of processes for the summoning of witnesses and other processes issued by the Controller or the President of the Tribunal of his own motion, but in respect of the summoning of witnesses and other processes issued at the instance of parties, fees at the rates prescribed by the High Court of Judicature at Fort William in Bengal under section 20 of the Court-fees Act, 1870, for the issue of processes by the Courts of Judges and Subordinate Judges within the local limits of its appellate jurisdiction, shall be levied

(2) A party applying for a summons shall from time to time also pay such amount for the travelling and other expenses or remuneration or detention of the person summoned as the Controller or the President of the Tribunal may fix, having regard to the provisions of Order XVI of the first schedule to the Code of Civil Procedure 1908, and the rules made in this behalf by the said High Court.

SUMMONSES.

8 Every summons shall contain the particulars specified in rule 5 of Order XVI of the first schedule to the Code of Civil Procedure, 1908.

9 A summons may be served by any person authorized by the Controller or the President of the Tribunal specially or generally in this behalf.

NOTICE OF A DEPOSIT OF RENT.

10. In giving notice of a deposit of rent under section 11, sub-section *(4)* of the Act, the procedure prescribed by rule 3 for delivery of a certified copy of an order made by the Controller shall, so far as applicable, be followed. The landlord may thereupon receive the rent deposited by submitting an application to the Controller.

DISTRAINT AND SALE OF MOVABLE PROPERTY.

11 (1) The President of the Tribunal shall certify the fine imposed under section 19 or 20 of the Act to the Controller, who shall thereupon issue a notice of demand.

(2) If any person liable for the payment of a fine under sub-rule (1) does not, within seven days from the service of a notice of demand, pay the sum due or show sufficient cause to the satisfaction of the Controller for the non-payment of the sum, the Controller may issue a warrant to levy such sum by distraint and sale of a sufficient portion of the movable property of the defaulter:

Provided that when the movable property distrained is shown to the satisfaction of the Controller to have been left in the premises with the defaulter for repairs or safe custody in the ordinary course of business, it shall be released;

Provided also that, if the said property or any part thereof belong to any person other than the defaulter, the defaulter shall be liable to indemnify the owner thereof for any damage he may sustain by reason of such distress, or by reason of any payment he may make to avoid such distress or any sale thereunder.

(3) The movable property of any person liable for the payment of any sum, for the levy of which a warrant has been issued as aforesaid, may be distrained wherever the same be found.

12. Any officer charged with the execution of a warrant of distress issued under rule 11 may, under the special order of the Controller to be recorded in writing, between sunrise and sunset, break open any outer or inner door or window of a building in order to make the distress, if he has reasonable ground for believing that such building contains property which is liable to seizure, and if, after notifying his authority and purpose, and duly demanding admittance, he cannot otherwise obtain admittance:

Provided that such officer shall not enter or break open the door of any apartment apportioned to females, until he has given three hours' notice of his intention and has given such females an opportunity to withdraw

13 The officer charged with the execution of a warrant of distress issued under rule 11 shall forthwith make an inventory of the movable property which he seizes under such warrant and shall at the same time give a written notice to the person in possession thereof at the time of seizure that the said movable property will be sold unless the amount due be paid within seven days from the date of the notice

14 If there is reason to believe that any property so seized is likely, if left in the place where it is found, to be removed by force the officer executing the warrant may, under the special order of the Controller, take it to any place appointed by the Controller

15 (1) If a warrant of distress issued under rule 11 is not in the meantime suspended by the Controller or discharged, the movable property seized shall, after the expiry of the period mentioned in the notice served under rule 13, be sold by order of the Controller

(2) All sales of property under this rule shall, so far as may be practicable, be regulated by the procedure for the time being in force in the Court of Small Causes of Calcutta with respect to sale after distress.

(3) No officer or servant belonging to the Controller's establishment shall directly or indirectly purchase any property at any such sale.

16. The surplus sale proceeds, if claimed by a written application within six months from the date of the sale, shall be refunded to any person who establishes his right to the satisfaction of the Controller

17 If the Controller is unable to recover the amount of the fine in full, he may issue a warrant for the distress and sale of any movable property belonging to the defaulter within the jurisdiction of any Magistrate in Bengal, and any Magistrate to whom a warrant is so issued shall endorse the same and cause it to be executed in the manner hereinbefore provided

18. No distress levied under this Act shall be deemed unlawful nor shall any person making the same be deemed a trespasser on account of any defect or want of form in the notice, warrant of distress, inventory or other proceedings relating thereto, nor shall such person be deemed a trespasser on account of any irregularity committed by him: but all persons aggrieved by such irregularity may recover in any court of competent jurisdiction full satisfaction for any special damage sustained by them.

19 (1) If the Controller at any time has reason to believe that any person from whom any sum is due on account of fine imposed under section 19 or section 20 of the Act is about forthwith to remove from his residence, the Controller may direct the immediate payment by such person of the sum so due by him, and cause a bill for the same to be presented to him.

(2) If on presentation of such a bill the said person do not forthwith pay the sum due by him the amount shall be leviable by distress and sale in the manner hereinbefore prescribed, except that it shall not be necessary to serve upon the defaulter any notice of demand, and the Controller's warrant for distress and sale may be issued and executed without any delay.

20. The Controller shall cause a regular account to be kept of all distresses levied and sales made for the recovery of fines.

21. Any fine imposed by the Controller or the President of the Tribunal under the provisions of rule 12 of Order XVI of the first schedule to the Code of Civil Procedure, 1908, may be levied, and any order passed by him for the attachment or sale of property under the provisions of rule 10 or rule 12 of the said Order may be carried into effect by distraint in the manner hereinbefore prescribed

MONTHLY WEATHER AND CROP REPORT OF BENGAL FOR JUNE 1920.

I. Character of the Season.—During the month under report the rainfall was in excess of the normal in Jalpaiguri, Darjeeling, Rangpur, Dacca, Tippera and the State of Cooch Behar; elsewhere it was in more or less marked defect. The usual rainfall statement is appended

II. Progress of Agricultural Operations.- Sowing of jute and autumn paddy was completed; weeding was in progress, especially in Western districts. Preparatory tillage for winter paddy and rearing of seedlings in nurseries continued; the operations were retarded in parts of Western Bengal for want of rain during the first part of the month. Harvesting of early autumn paddy and jute and transplantation of winter paddy seedlings commenced during the latter part of the month in the low-lying tracts of Eastern Bengal.

III. State of Standing Crops.—The condition of sugarcane, jute, paddy and other standing crops was fairly satisfactory.

IV. Prospects and Probable Outturn.—During the first part of the month, standing jute and other autumn crops suffered generally from lack of soil moisture, especially in the West Bengal districts, owing to inadequate rainfall, but the rain in the latter part of the month improved their prospects to some extent. The prospects of deep-water winter paddy in Eastern Bengal were generally hopeful

V. Damage to Standing Crops.—Except for some damage caused by hail in Rangpur and Tippera in the early part of the month, no reports of any damage to crops has been received.

VI. Condition of Agricultural Stock.—Sporadic cases of cattle disease were reported from fourteen districts of the province.

VII. Failure of Pasturage and Fodder.—No scarcity of fodder was reported from any part of the province

VIII. Prices of Foodgrains.—During the second fortnight of the month, the price of common rice of the cheapest quality rose in eleven districts, fell in six and remained stationary in the rest of the province It varied from 4 seers 8 chittacks per rupee at Darjeeling and Faridpur to 5 seers 13 chittacks a rupee at Dinajpur.

IX. Condition of Agricultural People.—The condition of the agricultural population was fair

Simla, the 15th July 1920.

RESOLUTION.

The Government of India have had under consideration the question of the revision of the emoluments of the employees in the Printing Presses under their control.

Revised conditions adopted in 1918

2 Early in 1918, petitions were received from employees of the various Government of India Presses asking for urgent relief in view of the rise in the cost of living, and the following allowances were sanctioned with effect from the 1st April 1918:—

Further [illegible] requested in 1919

3 In 1919 further petitions were received from the employees of all the Government of India Presses in which they stated that the temporary relief granted in 1918 was not adequate, and prayed for a permanent revision of pay, including the revision of the piece rates now in force The petitioners also asked that, if it was not possible to sanction a permanent revision of their pay and prospects immediately, they should be granted further temporary substantial relief from the 1st January 1919

Concessions granted in 1919.

4 After careful consideration, it was recognised that it might be necessary to have a consolidated revision of the pay and the piece rates in the Government of India Presses, but it was not found possible to effect such revision immediately, since this involved a laborious examination of the present earnings and a calculation of the probable expenditure While inquiries on these points were instituted, it was decided to grant some further temporary relief to the men

The following allowances were accordingly sanctioned with effect from the 1st October 1919, in lieu of those previously sanctioned:—

(*a*) *Superior servants*—

(*i*) On pay up to Rs. 70—25 per cent. of salary in Calcutta and Delhi, subject to a minimum salary of Rs. 25 per mensem. in the case of clerks and 35 per cent. in Simla.

(ii) On pay from Rs. 71 to Rs. 150—20 per cent of salary in Calcutta and Delhi and 30 per cent in Simla.

(iii) On pay from Rs. 151 to Rs. 300—15 per cent of salary in Calcutta and Delhi and 25 per cent in Simla

(iv) On pay from Rs. 301 to Rs. 600—10 per cent of salary in Calcutta and Delhi, and 20 per cent in Simla

(b) *Inferior servants*—

(i) *Calcutta and Delhi*—

Rs. 4 a month to all men drawing up to Rs 20, subject to a minimum salary of Rs 12

(ii) *Simla*—

Rs. 4 per mensem to all men subject to a minimum salary of Rs 12, *plus* a bonus of 10 per cent. on substantive pay

Summary of recent petitions.

5 Further petitions have since been submitted by the Press employees asking for various concessions. In the latest of these petitions it is asked that the piece system be totally abolished, and that men [illegible] present work on piece rates may be employed on wages on a time-scale [illegible] memorialists also put forward the following among other requests:—

(i) that overtime work be reduced as far as possible,

(ii) that piece workers be granted leave according to the Civil Service Regulations;

(iii) that they be granted good service pensions on 20 years' qualifying service and invalid pensions on 15 years of such service,

(iv) that all temporary service, whether continuous or interrupted, be allowed to count towards pension,

(v) that in cases of premature death from accident or illness, gratuities or family pensions be granted to their families,

(vi) that fines be no longer imposed for absence or bad work The men in the Simla Presses have also represented that, in view of the high rents prevailing in Simla, they should either be provided with quarters or be granted house allowance.

6. These representations have received the most careful and earnest attention of the Government of India

Revision of hours of work

7. The Government of India find on enquiry that the hours [illegible] work in the Presses are at present undeniably long, and they have decided that in future the normal day for all industrial workers in the Presses who draw overtime allowances should be 8½ hours on 5 days of the week (7 A.M to 5 P.M. or such other hours as may suit local conditions, including 1½ hours complete rest for meals, etc), and 5½ hours on Saturday (7 A M to 1-30 P.M. or such other hours as may suit local conditions with 1 hour's rest), thus making a total of 48 ordinary working hours in the week The men will also be allowed to work to a maximum of 12 extra hours during any week. For each overtime hour thus worked the men will receive an additional payment of 25 per cent. of their class rates per hour Thus, allowing for 25 working days during the month, no man will be required to work for more than 250 hours in a month (including overtime) except in cases of real emergency But to ensure that occasions of this nature are as few as possible, and to give an adequate reward for work performed under such conditions the additional payment made for each hour worked in excess of 10 hours on any day will be 50 per cent. of the class rate per hour. The above decision will not affect the clerical and the computing staffs of the Presses who will continue to be on the same footing as regards hours of work as clerical establishments in other offices.

PIECE WORKERS.

Necessity of retaining the piece work system

8 The Government of India also find that the present average earnings of piece workers in their Presses compare favourably with those that are earned in other establishments. Piece workers who attend regularly and work reasonably long hours earn good wages; as they improve their skill, they can obtain progressively higher rates. Those who are less regular in attendance or are less skilled naturally earn less; but it is clear that assiduity and a desire to improve their skill offer to all an ample prospect of advancement These facts very greatly reduce the force of the main argument used in most of the recent petitions, that the present piece rates are entirely out of date and inadequate The main objection, however, to the present system is as indicated above, that piece workers in many cases work very long hours, often exceeding the limit of the 60-hour week which the Government of India consider suitable for industrial establishments in this country The Government of India also realise the necessity of ensuring a regular flow of work so as to afford an equal distribution of opportunity to all workers The conclusion reached by the Government of India is, briefly, that workers should be enabled to earn a wage compatible with [illegible] standard of comfort under modern conditions, without the necessity of working for unduly long hours, but this object can be easily gained without the abolition of piece work To reduce the industrious and the intelligent to the same level with the casual or inexperienced worker would be a retrograde step, and would not be in the best interests of the men themselves, it would clearly be impossible to reward special merit without constant interference in a way that might give an opening to favouritism and injustice. The Government of India are therefore of opinion that the piece work system should continue, but they have decided to make the following modifications in the terms of employment of the piece workers in their Presses

Increase of piece work rates

9 The present scale of rates of payment for piece work will be raised by 40 per cent for Calcutta and Delhi, and by 50 per cent for Simla, at the same time, the special temporary allowances at present in force will be abolished As far as can be judged from the very detailed figures that the Government of India have obtained of the earnings of the men of different classes in the Calcutta, Delhi and Simla Presses during the year 1919-20, the piece workers will be able, under the increased rates now sanctioned, to earn more than their present total income in a shorter working day and under considerably more favourable conditions

Payment for lost time

10 Piece workers have represented that a real hardship has been caused by the fact that they receive no payment for any time during which they remain idle in the Press for lack of work To remove this grievance, it has been decided that in future they will be paid according to their class rates, if during normal working hours they have to remain idle for this cause

Leave rules for piece workers

11. The Government of India are not, however, prepared to accept the proposal that piece workers should have the same provisions for leave as salaried hands. They think that the piece workers should continue to be treated in this matter in the same way as the establishments of other industrial concerns, and that they should only be paid for days on which they attend for work. Superintendents of Presses are, however, authorised to waive, at their discretion, penalties for casual absences which are not covered by leave granted in advance or by medical certificate.

Under an arrangement of long standing, 8 days' casual leave with pay is granted to Simla piece workers (the majority of whom are residents of the plains), during the winter months when work is less pressing locally. In future, the Simla men will be allowed to combine with this leave, leave

without pay, and such combined leave will not be considered a break in service.

SALARIED HANDS

Revision of salaries

12 As regards salaried hands, the men at present draw their original basic pay *plus* the war allowance In addition, they get overtime allowances (except in the case of clerks and computers, who are not eligible for overtime) In view of the extention of the standard hours of work, and in order to secure an adequate living wage under altered conditions to all classes of workers in their Presses, the Government of India have decided to increase the pay at present drawn by the salaried employees of their Presses In fixing the revised scale for salaried hands at present entitled to overtime, the present basic pay has first of all been raised by one-third, and to this sum the present war allowances have been added The amount so obtained has been further raised to a figure which would, in the opinion of the Government of India, provide for the necessary degree of improvement in the present earnings of the men

Introduction of time scale

13. The Government of India understand, moreover, that much of the grievances of the subordinate employees is due to the fact that at present a certain amount of favouritism and petty oppression is possible in the promotion of salaried hands from one grade to another, there being at present a very large number of grades in each class of the establishment, and in almost all the representations recently received, it has been suggested that a time scale of pay should be introduced The Government of India have, therefore, decided to introduce time-scales of pay wherever possible

Readers, Revisers and Copyholders

14 The scales sanctioned for Readers, Revisers and Copyholders are as follows -

Calcutta and Delhi. Scale	Simla. Scale
Rs 200—10—250	.....
Rs 160—10- 200	Rs 180- 10— 220
Rs 110—8—150	Rs 125—8—165
Rs 60—4—110	Rs 70—4— 110
Rs 30—2- 50	Rs 40—2—60

with certain special appointments above these grades

The Head Reader and some of the senior readers in each of the Presses will not be paid any overtime allowance except the special overtime after 10 hours' work on any day The pay of these appointments has, therefore, been fixed at special rates not shown here on an estimate of the present earnings of the men on a 10-hour basis The other readers will draw overtime after normal hours now prescribed at the rates laid down in paragraph 7 above

Foremen, Section-holders and Assistant Section-holders

15 The following are the scales sanctioned for Foremen, Section-holders and Assistant Section holders —

Calcutta and Delhi.		Scale	Simla.		Scale
Foremen ...	Rs	200—10—300	Foremen ...	Rs	......
Assistant Foremen (Section-holders) ...	„	100—5—150	Assistant Foremen (Section-holders) ...	„	125—10—175
Assistant Section-holders ..	„	40—4—80	Assistant Section-holders ...	„	55—3—85

The scales sanctioned for Foremen and Section-holders are on a 10-hour basis, as these men will not in future be allowed to draw overtime excepting special overtime after 10 hours' work on any day. Assistant Section-holders will draw overtime after normal hours at the revised rates

Clerical and computing staff

16 With the exception of a few posts for men holding charge of the different sections of the offices which have been treated as special appointments at special rates of pay, the clerical and computing staff has been classified in three different grades given below:—

Calcutta and Delhi.		Scale	Average	Simla.		Scale	Average
Upper	...	Rs 130—10—200	166⅔	Upper	...	Rs 120—8—200	173¼
Lower "A"	...	„ 44—3—110	75	Lower "A"	.	„ 50—3—125	81¼
Lower "B"	...	„ 30—2—80	55	Lower "B"	..	„ 35—2½—90	60²

As explained above, the clerical and computing staff will, as at present, be on the same footing regarding hours of work as clerical establishments in other offices, and will not get any overtime allowances

Transfer from graded to time scale [illegible]

17 In order to give the men who will thus be placed on a time-scale some immediate increase on their present earnings, it has been decided that the ordinary rule (Art 157 of the C S R) should be waived, and that the present incumbents who will be transferred from graded to time-scales of pay, should be allowed to start on the time-scale at a stage which will give men drawing Rs 70 and below an increase of 10 per cent and men drawing from Rs 71 to Rs 300 an increase of 5 per cent on their present actual earnings, including war and overtime allowances *

In the case of men drawing higher salaries, except where there is any special reason for granting any increments in advance, Art 157 of the C S.R will apply

Exceptions to application of time scale

18 It has not been found possible to extend the system of time-scale of pay generally for other classes of Press employees, as owing to the great variety of work performed by them, it would be necessary to adopt an inconveniently large number of scales, with efficiency bar at different stages, and the result would practically be the same as the present graded system In the majority of cases, therefore, men, other than those belonging to the Clerical, Reading, and Composing Branches, will continue on fixed salaries, but under the revised rates sanctioned for them, they will in most cases gain about 10 per cent. over and above their present earnings *plus* their temporary allowances. In the few cases in which the men will not derive any immediate benefit, the Government of India will be prepared to consider sympathetically applications for personal allowances which are supported by the Controller of Printing

* N.B —For the purpose of this comparison overtime will be calculated on the understanding that the men used to work for eight or ten hours a day, as the case may be

GRANT OF CASUAL LEAVE

19 Salaried hands who earn overtime, will in future, be eligible for casual leave

PENSIONS AND PROVIDENT FUNDS.

Admissability to pension

20 Under existing rules, the services of piece workers on the temporary establishment does not count for pension in the case of men who are admitted eventually to the permanent establishment. This rule will be maintained, but the Government of India will be prepared to consider recommendations for pensions on behalf of men who have rendered 25 years' continuous and approved service, whether such service is classified as permanent or temporary

With a view to remove one of the principal grievances of men on the temporary salaried establishment, the Government of India have also decided to transfer a large proportion of such men from the temporary to the permanent establishment These privileges will apply only to men at present in the service.

Institution of a Provident Fund

21 A Provident Fund on the general lines of the Provident Funds of State Railways will be established for all regular employees of the Government of India Presses The rules regarding this Provident Fund will be announced later No persons entering the service in future will be eligible for pensions, and, with the exception of the day extra men, all men who join the Government of India Presses will be required to join this Fund

MISCELLANEOUS CONCESSIONS

Special rates for Simla

22 The Government of India are unable to accept the proposal that house rent allowance should be granted to the men employed in the Simla Presses But as house rents are high in Simla and the cost of living is somewhat greater than in the plains, they have fixed the revised rates for piece-workers as well as salaried hands at a higher level for Simla than those sanctioned for Calcutta and Delhi.

Date from which sanction will take effect

23 The revised terms now sanctioned for piece workers and salaried hands in the Government of India Presses will take effect from the date of the issue of these orders

Works Committee

24 The Government of India have had under their consideration the question of introducing a system of Works Committees composed of representatives of different classes of workers and of the supervising staff in Government Factories on the lines of those developed in England and they have decided that a beginning in this direction should be made with the Government Presses Committees of this sort will enable the various grades of the supervising staff to realise more fully the conditions under which the workers labour, they will enable the workers to appreciate the problems connected with the distribution of complementary tasks, they will enable all classes to understand the value of co-operation with a view of removing inequalities of hours and conditions of work, and generally should develop the form of pubic spirit which enables all classes to realise the importance of each individual's work in the general result

25 To sum up, whilst the temporary allowance will be absorbed, under the new arrangements, the following permanent improvements in service conditions will be secured to the different classes of employees in the Government of India Presses —

I — CLERKS AND COMPUTORS.

Time-scales of pay will be introduced which will give them an immediate increase on their present earnings, and will insure very considerably improved prospects for the remainder of their service

II —INDUSTRIAL HANDS.

(1) There will be a substantial shortening of the actual hours of labour In future the hours will be restricted to 60 a week, except in cases of emergency. At present the average hours of work are considerably in excess of this limit.

(2) A large number of men who are now employed on a temporary basis will become eligible for pension privileges and will be allowed to count their past continuous temporary service

(3) For all future employees of the Government of India Presses a Provident Fund will be instituted on the lines of the State Railways Provident Funds

(4) Piece workers among industrial hands will have the following additional benefits:—

(*a*) Piece rates will be raised by 40 per cent for Calcutta and Delhi and by 50 per cent for Simla.

(*b*) For overtime in excess of 8 hours, the hour class rates will be further enhanced by 25 per cent, *i e*, they will be 175 per cent. of the present rates in Calcutta and Delhi and 187½ per cent of present rates in Simla

(*c*) For overtime in excess of 10 hours, the hour class rates will be 50 per cent above the new rates, *i.e*, they will be 210 per cent of the present rates in Calcutta and Delhi and 225 per cent. of the present rates in Simla

(*d*) Payment will be made for hours during which a piece worker may be unoccupied on account of lack of work

The average earnings of piece-work compositors in the Government of India Presses now range from Rs 35 to Rs 90 per mensem according to class [illegible] believed that as the result of rates now sanctioned, they will in general [illegible] still higher wages in spite of a material reduction in the hours of labour

(5) Salaried men among the industrial hands will have the following benefits:—

(*a*) In certain branches of the Press, time-scales of pay will be introduced, insuring an immediate increase in the earnings and greatly improved prospects in the future

(*b*) In branches where time-scales are not feasible, there will be better grading and improved salaries on an eight-hour basis.

(*c*) Except in special cases, overtime on all work in excess of 8 hours will be paid at a rate 25 per cent above the proportional rate of salary, while overtime in excess of 10 hours will be paid at a rate 50 per cent above the proportional rate of salary

(*d*) Salaried men, who earn overtime, will be eligible for casual leave

III.—WORKS COMMITTEES

Works Committees will be established to afford the men regular opportunities of discussing with the supervising staff inequalities and difficulties that may arise under working conditions

26 It is hoped that the revised terms of employment explained in this Resolution will substantially improve the position of all employees in the Government of India Presses

ORDER — Ordered that a copy of the foregoing Resolution be forwarded to all Local Government and Administrations, to the Finance and the Foreign and Political Departments of the Government of India, to the Private Secretary to His Excellency the Viceroy, to the Controller of Printing, Stationery and Stamps to the Superintendent, Government Printing, India, Calcutta, to the Superintendent, Government Printing, Delhi, to the Superintendent, Government Central Branch Press, Simla, and to the Manager, Monotype Press, Simla

ANNEX

1 Each of the High Contracting Parties will within three months from the notification provided for in Article 296 paragraph (*e*), establish a Clearing Office for the collection and payment of enemy debts

Local Clearing Offices may be established for any particular portion of the territories of the High Contracting Parties Such local Clearing Offices may perform all the functions of a central Clearing Office in their respective districts, except that all transactions with the Clearing Office in the Opposing State must be effected through the central Clearing Office

2. In this Annex the pecuniary obligations referred to in the first paragraph of Article 296 are described as " enemy debts, " the persons from whom the same are due as " enemy debtors, " the persons to whom they are due as " enemy creditors, " the Clearing Office in the country of the creditor is called the " Creditor Clearing Office, " and the Clearing Office in the country of the debtor is called the " Debtor Clearing Office "

3. The High Contracting Parties will subject contraventions of paragraph (*a*) of Article 296 to the same penalties as are at present provided by their legislation for trading with the enemy They will similarly prohibit within their territory all legal process relating to payment of enemy debts, except in accordance with the provisions of this Annex

4. The Government guarantee specified in paragraph (*b*) of Article 296 shall take effect whenever, for any reason, a debt shall not be recoverable, except in a case where at the date of the outbreak of war the debt was barred

by the laws of prescription in force in the country of the debtor or where the debtor was at that time in a state of bankruptcy or failure or had given formal indication of insolvency, or where the debt was due by a company whose business has been liquidated under emergency legislation during the war. In such case the procedure specified by this Annex shall apply to payment of the dividends

The terms "bankruptcy" and "failure" refer to the application of legislation providing for such juridical conditions The expression "formal indication of insolvency" bears the same meaning as it has in English law.

5 Creditors shall give notice to the Creditor Clearing Office within six months of its establishment of debts due to them, and shall furnish the Clearing Office with any documents and information required of them.

The High Contracting Parties will take all suitable measures to trace and punish collusion between enemy creditors and debtors The clearing offices will communicate to one another any evidence and information which might help the discovery and punishment of such collusion.

The High Contracting Parties will facilitate as much as possible postal and telegraphic communications at the expense of the parties concerned and through the intervention of the Clearing Offices between debtors and creditors desirous of coming to an agreement as to the amount of their debt

The [illegible]tor Clearing Office will notify the Debtor Clearing Office of all debts d[illegible] to it The Debtor Clearing Office will, in due course, inform the Creditor Clearing Office which debts are admitted and which debts are contested In the latter case, the Debtor Clearing Office will give the grounds for the non-admission of debt

6 When a debt has been admitted, in whole or in part, the Debtor Clearing Office will at once credit the Creditor Clearing Office with the amount admitted, and at the same time notify it of such credit

7 The debt shall be deemed to be admitted in full and shall be credited forthwith to the Creditor Clearing Office unless within three months from the receipt of the notification or such longer time as may be agreed to by the Creditor Clearing Office notice has been given by the Debtor Clearing Office that it is not admitted.

8. When the whole or part of a debt is not admitted the two Clearing Offices will examine into the matter jointly and will endeavour to bring the parties to an agreement

9. The Creditor Clearing Office will pay to the individual creditor the sums credited to it out of the funds placed at its disposal by the Government of its country and in accordance with the conditions fixed by the said Government, retaining any sums considered necessary to cover risks, expenses or commissions.

10 Any person having claimed payment of an enemy debt which is not admitted in whole or in part shall pay to the Clearing Office, by way of fine, interest at 5 per cent on the part not admitted Any person having unduly refused to admit the whole or part of a debt claimed from him shall pay, by way of fine, interest at 5 per cent on the amount with regard to which his refusal shall be disallowed.

Such interest shall run from the date of expiration of the period provided for in paragraph 7 until the date on which the claim shall have been disallowed or the debt paid

Each Clearing Office shall, in so far as it is concerned, take steps to collect the fines, above provided for and will be responsible if such fines cannot be collected

The fines will be credited to the other Clearing Office which shall retain them as a contribution towards the cost of carrying out the present provisions.

11 The balance between the Clearing Offices shall be struck monthly and the credit balance paid in cash by the debtor State within a week.

Nevertheless, any credit balances which may be due by one or more of the Allied and Associated Powers shall be retained until complete payment shall

have been effected of the sums due to the Allied or Associated Powers or their nationals on account of the war.

12. To facilitate discussion between the Clearing Offices each of them shall have a representative at the place where the other is established.

13. Except for special reasons all discussions in regard to claims will, so far as possible, take place at the Debtor Clearing Office.

14. In conformity with article 296, paragraph (*b*), the High Contracting Parties are responsible for the payment of the enemy debts owing by their nationals.

The Debtor Clearing Office will therefore credit the Creditor Clearing Office with all debts admitted even in case of inability to collect them from the individual debtor. The Governments concerned will, nevetheless, invest their respective Clearing Offices with all necessary powers for the recovery of debts which have been admitted.

As an exception, the admitted debts owing by persons having suffered injury from acts of war shall only be credited to the Creditor Clearing Office when the compensation due to the person concerned in respect of such injury shall have been paid.

15. Each Government will defray the expenses of the Clearing Office set up in its territory including the salaries of the staff.

16. Where the two Clearing Offices are unable to agree whether a debt claimed is due or in case of a difference between an enemy debtor and an enemy creditor or between the Clearing Offices, the dispute shall either be referred to arbitration if the parties so agree under conditions fixed by agreement between them, or referred to the Mixed Arbitral Tribunal provided for in Section VI, hereafter.

At the request of the Creditor Clearing Office the dispute may, however, be submitted to the jurisdiction of the Courts of the place of domicile of the debtor.

17. Recovery of sums found by the Mixed Arbitral Tribunal, the Court, or the Arbitration Tribunal to be due shall be effected through the Clearing Offices as if these sums were debts admitted by the Debtor Clearing Office.

18. Each of the Governments concerned shall appoint an agent who will be responsible for the presentation to the Mixed Arbitral Tribunal of the cases conducted on behalf of its Clearing Office. This agent will exercise a general control over the representatives or counsel employed by its nationals.

Decisions will be arrived at on documentary evidence but it will be open to the Tribunal to hear the parties in person, or according to their preference by their representatives approved by the two Governments, or by the agent referred to above, who shall be competent to intervene along with the party or to re-open and maintain a claim abandoned by the same.

19. The Clearing Offices concerned will lay before the Mixed Arbitral Tribunal all the information and documents in their possession, so as to enable the Tribunal to decide rapidly on the cases which are brought before it.

20. Where one of the parties concerned appeals against the joint decision of the two Clearing Offices he shall make a deposit against the costs, which deposit shall only be refunded when the first judgment is modified in favour of the appellant and in proportion to the success he may attain, his opponent in case of such a refund being required to pay an equivalent proportion of the costs and expenses. Security accepted by the Tribunal may be substituted for a deposit.

A fee of 5 per cent. of the amount in dispute shall be charged in respect of all cases brought before the Tribunal. This fee shall, unless the Tribunal directs otherwise, be borne by the unsuccessful party. Such fee shall be added to the deposit referred to. It is also independent of the security.

The Tribunal may award to one of the parties a sum in respect of the expenses of the proceedings.

Any sum payable under this paragraph shall be credited to the Clearing Office of the successful party as a separate item.

21 With a view to the rapid settlement of claims, due regard shall be paid in the appointment of all persons connected with the Clearing Offices or with the Mixed Arbitral Tribunal to their knowledge of the language of the other country concerned. Each of the clearing Offices will be at liberty to correspond with the other, and to forward documents in its own language.

22 Subject to any special agreement to the contrary between the Governments concerned debts shall carry interest in accordance with the following provisions :—

Interest shall not be payable on sums of money due by way of dividend, interest, or other periodical payments which themselves represent interest on capital

The rate of interest shall be 5 per cent per annum except in cases where, by contract, law or custom, the creditor is entitled to payment of interest at a different rate In such cases the rate to which he is entitled shall prevail.

Interest shall run from the date of commencement of hostilities (or, if the sum of money to be recovered fell due during the war, from the date at which it fell due) until the sum is credited to the Clearing Office of the creditor

Sums due by way of interest shall be treated as debts admitted by the Clearing Offices and shall be credited to the Creditor Clearing Offices in the same way as such debts

23. Where by decision of the Clearing Offices or the Mixed Arbitral Tribunal a claim is held not to fall within Article 296, the creditor shall be at liberty to prosecute the claim before the Courts or to take such other proceedings as may be open to him.

The presentation of a claim to the Clearing Office suspends the operation of any period of prescription

24 The High Contracting Parties agree to regard the decisions of the Mixed Arbitral Tribunal as final and conclusive, and to render them binding upon their nationals

25 In any case where a Creditor Clearing Office declines to notify a claim to the Debtor Clearing Office, or to take any step provided for in this Annex, intended to make effective in whole or in part a request of which it has received due notice, the enemy creditor shall be entitled to receive from the Clearing Office a certificate setting out the amount of the claim and shall then be entitled to prosecute the claim before the Courts or to take such other proceedings as may be open to him

9 The place and time for the meetings of each Tribunal shall be determined by the President of the Tribunal

ARTICLE 305

Whenever a competent Court has given or gives a decision in a case covered by Sections III, IV, V or VII, and such decision is inconsistent with the provisions of such Sections, the party who is prejudiced by the decision shall be entitled to obtain redress which shall be fixed by the Mixed Arbitral Tribunal. At the request of the national of an Allied or Associated Power the redress may, whenever possible, be effected by the Mixed Arbitral Tribunal directing the replacement of the parties in the position occupied by them before the judgment was given by the German Court

SECTION VII—INDUSTRIAL PROPERTY

ARTICLE 306

Subject to the stipulations of the present Treaty, rights of industrial, literary, and artistic property, as such property is defined by the International Conventions of Paris and of Berne, mentioned in Article 286, shall be re-established or restored, as from the coming into force of the present Treaty, in the territories of the High Contracting Parties, in favour of the persons entitled to the benefit of them at the moment when the state of war commenced or their legal representatives Equally, rights which, except for the war, would have been acquired during the war in consequence of an application made for the protection of industrial property, or the publication of a literary or artistic work, shall be recognised and established in favour of those persons who would have been entitled thereto, from the coming into force of the present Treaty.

Nevertheless, all acts done by virtue of the special measures taken during the war under legislative, executive or administrative authority of any Allied or Associated Power in regard to the rights of German nationals in industrial, literary or artistic property shall remain in force and shall continue to maintain their full effect.

No claim shall be made or action brought by Germany or German nationals in respect of the use during the war by the Government of any Allied or Associated Power, or by any persons acting on behalf or with the assent of such Government, of any rights in industrial, literary or artistic property, nor in respect of the sale, offering for sale, or use of any products, articles or apparatus whatsoever to which such rights applied.

Unless the legislation of any one of the Allied or Associated Powers in force at the moment of the signature of the present Treaty otherwise directs, sums due or paid in virtue of any act or operation resulting from the execution of the special measures mentioned in paragraph 1 of this Article shall be dealt with in the same way as other sums due to German nationals are directed to be dealt with by the present Treaty, and sums produced by any special measures taken by the German Government in respect of rights in industrial, literary or artistic property belonging to the nationals of the Allied or Associated Powers shall be considered and treated in the same way as other debts due from German nationals.

Each of the Allied and Associated Powers reserves to itself the right to impose such limitations, conditions, or restrictions on rights of industrial, literary, or artistic property (with the exception of trade-marks) acquired before or during the war, or which may be subsequently acquired in accordance with its legislation, by German nationals, whether by granting licenses, or by the working, or by preserving control over their exploitation, or in any other way, as may be considered necessary for national defence, or in the public interest, or for assuring the fair treatment by Germany of the rights of industrial, literary and artistic property held in German territory by its nationals, or for securing the due fulfilment of all the obligations undertaken by Germany in the present Treaty. As regards rights of industrial, literary, and artistic property acquired after the coming into force of the present Treaty, the right so reserved by the Allied and Associated Powers shall only be exercised in cases where these limitations, conditions or restrictions may be considered necessary for national defence or in the public interest.

In the event of the application of the provisions of the preceding paragraph by any Allied or Associated Power, there shall be paid reasonable indemnities or royalties which shall be dealt within the same way, as other sums due to German nationals are directed to be dealt with by the present Treaty.

Each of the Allied or Associated Powers reserves the right to treat as void and of no effect any transfer in whole or in part of or other dealing with rights of or in respect of industrial, literary, or artistic property effected after August 1st, 1914, or in the future, which would have the result of defeating the objects of the provisions of this article.

The provisions of this article shall not apply to rights in industrial, literary or artistic property which have been dealt with in the liquidation of businesses or companies under war legislation by the Allied or Associated Powers, or which may be so dealt with by virtue of Article 297, paragraph (b).

ARTICLE 307.

A minimum of one year after the coming into force of the present Treaty shall be accorded to the nationals of the High Contracting Parties, without extension fees or other penalty in order to enable such persons to accomplish any act, fulfil any formality, pay any fees, and generally satisfy any obligation prescribed by the laws or regulations of the respective States relating to the obtaining, preserving, or proposing rights to, or in respect of industrial

property either acquired before August 1, 1914, or which, except for the war, might have been acquired since that date as a result of an application made before the war or during its continuance, but nothing in this article shall give any right to re-open interference proceedings in the United States of America where a final hearing has taken place

All rights in, or in respect of, such property, which may have lapsed by reason of any failure to accomplish any act, fulfil any formality, or make any payment, shall revive, but subject in the case of patents and designs to the imposition of such conditions as each Allied or Associated Power, may deem reasonably necessary for the protection of persons who have manufactured or made use of the subject matter of such property while the rights had lapsed. Further, where rights to patents or designs belonging to German nationals are revived under this article, they shall be subject in respect of the grant of licenses to the same provisions as would have been applicable to them during the war, as well as to all the provisions of the present Treaty.

The period from August 1, 1914, until the coming into force of the present Treaty shall be excluded in considering the time within which a patent should be worked or a trade mark or design used, and it is further agreed that no patent, registered trade mark, or design in force on August 1, 1914, shall be subject to revocation or cancellation by reason only of the failure to work such patent or use such trade mark or design for two years after the coming into force of the present Treaty

ARTICLE 308

The rights of priority provided by Article IV, of the International Convention for the Protection of Industrial Property of Paris, of March 20, 1883, revised at Washington in 1911 or by any other Convention or Statute, for the filing or registration of applications for patents or models of utility, and for the registration of trade marks, designs, and models which had not expired on August 1, 1914, and those which have arisen during the war, or would have arisen but for the war, shall be extended by each of the High Contracting Parties in favour of all nationals of the other High Contracting Parties for a period of six months after the coming into force of the present Treaty

Nevertheless, such extension shall in no way effect the right of any of the High Contracting Parties or of any person who before the coming into force of the present Treaty was *bonâ fide* in possession of any rights of industrial property conflicting with rights applied for by another who claims rights of priority in respect of them, to exercise such rights by itself or himself personally, or by such agents or licensees as derived their rights from it or him before the coming into force of the present Treaty, and such persons shall not be amenable to any action or other process of law in respect of infringement.

ARTICLE 309

No action shall be brought and no claim made by persons residing or carrying on business within the territories of Germany on the one part and of the Allied or Associated Powers on the other, or persons who are nationals of such powers respectively, or by any one deriving title during the war from such persons, by reason of any action which has taken place within the territory of the other party between the date of the declaration of war and that of the coming into force of the present Treaty, which might constitute an infringement of the rights of industrial property or rights of literary and artistic property, either existing at any time during the war or revived under the provisions of articles 307 and 308

Equally, no action for infringement of industrial, literary, or artistic property rights by such persons shall at any time be permissible in respect of the sale or offering for sale for a period of one year after the signature

of the present Treaty, in the territories of the Allied or Associated Powers on the one hand or Germany on the other, of products or articles manufactured, or of literary or artistic works published during the period between the declaration of war and the signature of the present Treaty, or against those who have acquired and continue to use them. It is understood, nevertheless, that this provision shall not apply when the possessor of the rights was domiciled or had an industrial or commercial establishment in the districts occupied by Germany during the war.

This article shall not apply as between the United States of America on the one hand and Germany on the other.

ARTICLE 310

Licenses in respect of industrial, literary or artistic property concluded before the war between nationals of the Allied or Associated Powers or persons residing in their territory or carrying on business therein, on the one part, and German nationals, on the other part, shall be considered as cancelled as from the date of the declaration of war between Germany and the Allied or Associated Power But, in any case, the former beneficiary of a contract of this kind shall have the right, within a period of six months after the coming into force of the present Treaty, to demand from the proprietor of the rights the grant of a new license, the conditions of which, in default of agreement, between the parties, shall be fixed by the duly qualified tribunal in the country under whose legislation the rights have been acquired, except in the case of licenses held in respect of rights acquired under German law In such cases the conditions shall be fixed by the Mixed Arbitral Tribunal referred to in Section VI of this Part The tribunal may, if necessary, fix also the amount which it may deem just should be paid by reason of the use of the rights during the war

No license in respect of industrial literary, or artistic property, granted under the special war legislation of any Allied or Associated Power, shall be affected by the continued existence of any license entered into before the war, but shall remain valid and of full effect, and a license so granted to the former beneficiary of a license entered into before the war shall be considered as substituted for such license

Where sums have been paid during the war by virtue of a license or agreement concluded before the war in respect of rights of industrial property or for the reproduction or the representation of literary, dramatic or artistic works, these sums shall be dealt with in the same manner as other debts or credits of German nationals, as provided by the present Treaty

This Article shall not apply as between the United States of America on the one hand and Germany on the other.

ARTICLE 311

The inhabitants of territories separated from Germany by virtue of the present Treaty shall, notwithstanding this separation and the change of nationality consequent thereon, continue to enjoy in Germany all the rights in industrial, literary and artistic property to which they were entitled under German legislation at the time of the separation

Rights of industrial, literary and artistic property which are in force in the territories separated from Germany under the present Treaty at the moment of the separation of these territories from Germany or which will be re-established or restored in accordance with the provisions of Article 306 of the present Treaty, shall be recognized by the State to which the said territory is transferred and shall remain in force in that territory for the same period of time given them under the German law."

ESTABLISHMENTS

Simla, the 20th July 1920

RESOLUTION

IN introducing the revised rates of pay for the Indian Civil Service it was provided in paragraph 4 of the Home Department resolution No 286, dated the 13th February 1920, that personal allowances should, if necessary be given to individual officers whose pay under the revised rates would in consequence of unusually rapid promotion in the past be less than the substantive pay they were drawing on the date of the introduction of the new rates It has, however, been brought to the notice that in certain individual cases these orders have not sufficed to protect officers from an immediate reduction of emoluments as no provision was made for the retention of acting allowances

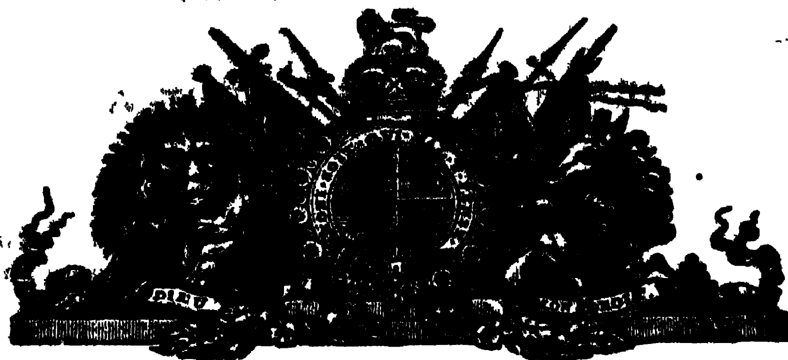

2 In order to meet the latter class of case, the Government of India have decided that officers of the Indian Civil Service should be granted personal allowances, where necessary, so as to bring their remuneration up to the total of pay *plus* acting allowance which they were drawing on the date of the introduction of the new rates of pay These personal allowances will be absorbed in subsequent increments of pay in accordance with the principle of article 61-C S R In the case of an officer who was at the date of the introduction of the new rates officiating in a superior post and who subsequently reverts to an inferior post or who was officiating in a post above or outside the time-scale and subsequently reverts to a post in the time-scale, the personal allowance will finally cease to be drawn from the date of such reversion In all other cases the personal allowance will continue at the rate originally fixed subject to reduction in accordance with the provisions of article 61-C S R irrespective of any grade reversion to which the officer might have been liable

3. The Government of India are not aware that similar difficulties have arisen in regard to members of any of the other Imperial Services whose pay has been revised as a result of the recommendations of the Public Services Commission, but they are pleased to direct that personal allowances shall, where necessary, be given to members of such services on the principles laid down in paragraph 2 of this resolution

Order.—Ordered that a copy of this resolution be forwarded to all Local Governments and Administrations, the several departments of the Government of India (including the Financial Adviser, Military Finance) and the offices subordinate to this department, for information and guidance

Ordered also that it be published in the Supplement to the *Gazette of India* for general information.

the election of the returned candidate shall be void

(2) If the Commissioners report that a returned candidate has been guilty by an agent (other than his election agent) of any corrupt practice specified in Part I of Schedule IV which does not amount to any form of bribery other than treating as hereinafter explained or to the procuring or abetment of personation, and if the Commissioners further report that the candidate has satisfied them that—

(*b*) such candidate and his election agent took all reasonable means for preventing the commission of corrupt practices at such election, and

(*c*) the corrupt practices mentioned in the said report were of a trivial, unimportant and limited character, and

then the Commissioners may find that the election of such candidate is not void.

Explanation.—For the purpose of this sub-rule "treating" means the incurring in whole or in part by any person of the expense of giving or providing any food, drink, entertainment or provision to any person, with the object, directly or indirectly, of inducing him or any other person to vote or refrain from voting or as a reward for having voted or refrained from voting.

Report of Commissioners and procedure thereon.

43. (1) At the conclusion of the enquiry the Commissioners shall report whether the returned candidate, or any other party to the petition who has under the provisions of these rules claimed the seat, has been duly elected, and in so reporting shall have regard to the provisions of rule 42.

(2) The report shall be in writing and shall be signed by all the Commissioners. XLVIII. On or before such date as may be appointed by the local Government in this behalf, but not later than 5 P.M on that date, each elector desirous of recording his vote shall sign the declaration on the back of the ballot paper in the presence of an attesting officer, and the attesting officer shall thereupon attest his signature.

XLIX The elector shall then proceed to a place set apart for that purpose by the attesting officer, and there shall record his vote on the ballot paper in accordance with the instructions therein, and after placing the ballot paper in an envelope, and closing the same, shall deliver it to the attesting officer.

L If an elector is unable to read or write, or by reason of some physical defect is incapacitated from recording his vote, the attesting officer shall assist him in such manner as may be necessary to mark the ballot paper and to sign the declaration thereon

LI The attesting officer shall, at the close of the day appointed as the latest date for the attestation of ballot papers, despatch all the envelopes so delivered to him to the returning officer by registered post in a packet securely sealed with his official seal, and shall also enclose a list, in Form VII annexed to these regulations, of the electors whose ballot papers he has attested

Special Regulations applicable to the Presidency and Burdwan (European) constituency.

LV In the case of an election for the Presidency and Burdwan (European) constituency regulations XXVIII, XXX, and XXXV (2) shall not be applicable, and the following regulations shall be substituted therefor, and shall apply

LVI In the following regulations—

(1) the expression "continuing candidate" means any candidate not elected and not excluded from the poll;

(2) the expression "first preference" means the figure "1"; the expression "second preference" means the figure "2"; and the expression "third preference" means the figure "3", set opposite the name of any candidate, and so on ;

(3) the expression "transferable paper" means a ballot paper on which a second or subsequent preference is recorded for a continuing candidate ;

(4) the expression "non-transferable paper" means a ballot paper on which no second or subsequent preference is recorded for a continuing candidate:

Provided that a paper shall be deemed to be a non-transferable paper in any case in which—

(a) the names of two or more candidates (whether continuing or not) are marked with the same figure, and are next in order of preference; or

(b) the name of the candidate next in order of preference (whether continuing or not) is marked—

(i) by a figure not following consecutively after some other figure on the ballot paper; or

(ii) by two or more figures;

(5) the expression "original vote" in regard to any candidate means a vote derived from a ballot paper on which a first preference is recorded for that candidate;

(6) the expression "transferred vote" in regard to any candidate means a vote derived from a ballot paper on which a second or subsequent preference is recorded for that candidate;

(7) the expression "surplus" means the number of votes by which the total number of the votes, original and transferred, credited to any candidate, exceeds the quota.

LVII The ballot paper shall contain the names of the candidates arranged alphabetically in the order of their surnames, and if there are two or more candidates with the same surname, in the order of their other names. It shall be in the form set out in Form VIII annexed to these regulations

LVIII (1) Every elector shall have one vote only.

(2) An elector in giving his vote—

(a) must place on his ballot paper the figure 1 in the square opposite the name of the candidate for whom he votes;

(b) may in addition place on his ballot paper the figure 2 or the figures 2 and 3, or 2, 3 and 4, and so on, in the squares opposite the names of other candidates in the order of his preference.

LIX. A ballot paper shall be invalid on which—

(a) the figure 1 is not marked; or

(b) the figure 1 is set opposite the name of more than one candidate; or is so placed as to render it doubtful to which candidate it is intended to apply; or

(c) the figure 1 and some other figure are set opposite the name of the same candidate;

(d) any mark is made by which the voter may afterwards be identified.

LX. On the day appointed under regulation XXXV(1) for the counting of votes, the returning officer shall open the ballot-box, and, after scrutiny, separate the ballot papers which he deems valid from those which he rejects, endorsing on the latter the word "Rejected" and the ground of rejection, and after rejecting any that are invalid, shall arrange the remainder in parcels according to the first preferences recorded for each candidate.

LXI. The returning officer shall then count the number of papers in each parcel, and credit each candidate with one vote in respect of each valid paper on which a first preference has been recorded for him, and he shall ascertain the total number of valid papers.

LXII. The returning officer shall then divide the total number of valid papers by a number exceeding by one the number of vacancies to be filled, and the result increased by one, disregarding any fractional remainder, shall be the number of votes sufficient to secure the return of a candidate (hereinafter called the "quota").

LXIII. If at any time the number of votes credited to a candidate is equal to or greater than the quota, that candidate shall be declared elected.

LXIV. (1) If at any time the number of votes credited to a candidate is greater than the quota, the surplus shall be transferred in accordance with the provisions of this regulation to the continuing candidates indicated on the ballot papers in the parcel of the elected candidate as being next in order of the voters' preference.

(2) (a) If the votes credited to an elected candidate consist of original votes only, the returning officer shall examine all the papers in the parcel of the elected candidate whose surplus is to be transferred, and shall arrange the transferable papers in sub-parcels according to the next preferences recorded thereon

(b) If the votes credited to an elected candidate consist of original and transferred votes, or of transferred votes only, the returning officer shall examine the papers contained in the sub-parcel last received by the elected candidate and shall arrange the transferable papers therein in further sub-parcels according to the next preferences recorded thereon.

(c) In either case the returning officer shall make a separate sub-parcel of the non-transferable papers and shall ascertain the number of papers in each sub-parcel of transferable papers and in the sub-parcel of non-transferable papers

(3) If the total number of papers in the sub-parcels of transferable papers is equal to or less than the surplus the returning officer shall transfer each sub-parcel of transferable papers to the continuing candidate indicated thereon as the voters' next preference.

(4) (a) If the total number of transferable papers is greater than the surplus, the returning officer shall transfer from each sub-parcel the number of papers which bears the same proportion to the number of papers in the sub-parcel as the surplus bears to the total number of transferable papers.

(b) The number of papers to be transferred from each sub-parcel shall be ascertained by multiplying the number of papers in the sub-parcel by the surplus and dividing the result by the total number of transferable papers. A note shall be made of the fractional parts, if any, of each number so ascertained

(c) If, owing to the existence of such fractional parts, the number of papers to be transferred is less than the surplus, so many of these fractional parts taken in the order of their magnitude, beginning with the largest as are necessary to make the total number of papers to be transferred equal to the surplus, shall be reckoned as of the value of unity, and the remaining fractional parts shall be ignored

(d) The particular papers to be transferred from each sub-parcel shall be those last filed in the sub-parcel

(e) Each paper transferred shall be marked in such a manner as to indicate the candidate from and to whom the transfer is made.

(5) (a) If more than one candidate has a surplus, the largest surplus shall be first dealt with

(b) If two or more candidates have each the same surplus, regard shall be had to the number of original votes obtained by each candidate, and the surplus of the candidate credited with the largest number of original votes shall be first dealt with, and, if the numbers of the original votes are equal, the returning officer shall decide which surplus he will first deal with.

(c) The returning officer need not transfer the surplus of an elected candidate when that surplus together with any other surplus not transferred does not exceed the difference between the totals of the votes credited to the two continuing candidates lowest on the poll.

LXV (1) If at any time no candidate has a surplus (or when under the preceding rule any existing surplus need not be transferred) and one or more vacancies remain unfilled the returning officer shall exclude from the poll the candidate credited with the lowest number of votes, and shall examine all the papers of that candidate, and shall arrange the transferable papers in sub-parcels according to the next preferences recorded thereon for continuing candidates and shall transfer each sub-parcel to the candidate for whom that preference is recorded.

(2) If the total of the votes of the two or more candidates lowest on the poll, together with any surplus votes not transferred, is less than the votes credited to the next highest candidate, the returning officer may in one operation exclude those candidates from the poll and transfer their votes in accordance with the preceding regulation.

(3) If, when a candidate has to be excluded under this regulation, two or more candidates have each the same number of votes and are lowest on the poll, regard shall be had to the number of original votes credited to each of those candidates, and the candidate with fewest original votes shall be excluded, and, where the numbers of the original votes are equal, regard shall be had to the total number of votes credited to those candidates at the first transfer at which they had an unequal number of votes, and the candidate with the lowest number of votes at that transfer shall be excluded, and, where the numbers of votes credited to those candidates were equal at all transfers, the returning officer shall decide which shall be excluded.

LXVI. (1) Whenever any transfer is made under any of the preceding regulations, each sub-parcel of papers transferred shall be added to the parcel, if any, of papers of the candidate to whom the transfer is made, and that candidate shall be credited with one vote in respect of each paper transferred Such papers as are not transferred shall be set aside as finally dealt with, and the votes given thereon shall thenceforth not be taken into account

(2) If after any transfer a candidate has a surplus, that surplus shall be dealt with in accordance with and subject to the provisions contained in regulation LXIV before any other candidate is excluded.

LXVII (1) When the number of continuing candidates is reduced to the number of vacancies remaining unfilled, the continuing candidates shall be declared elected.

(2) When only one vacancy remains unfilled, and the votes of some one continuing candidate exceed the total of all the votes of the other continuing candidates, together with any surplus not transferred, that candidate shall be declared elected.

(3) When the last vacancies can be filled under this regulation, no further transfer of votes need be made

LXVIII. Any candidate or his duly authorized representative in his absence may, at any time during the counting of the votes, either before the commencement or after the completion of any transfer of votes (whether surplus or otherwise), request the returning officer to re-examine and recount the papers of all or any candidates (not being papers set aside at any previous transfer as finally dealt with), and the returning officer shall forthwith re-examine and recount the same accordingly The returning officer may also at his discretion recount votes either once or more often in any case in which he is not satisfied as to the accuracy of any previous count

Provided that nothing herein shall make it obligatory on the returning officer to recount the same votes more than once

LXIX Upon the completion of the counting the returning officer shall—

(a) (1) verify the ballot paper account given by each presiding officer under regulation XXXIV, by comparing it with the number of ballot papers found by him in the ballot box, the unused ballot papers, and the tendered votes list The sealed packets of the tendered ballot papers, of the marked copies of the roll, and of the counterfoils of the ballot papers shall not be opened,

(2) seal up in separate packets the counted and rejected ballot papers, and reseal each sealed packet that has been opened, and record on each such packet a description of its contents, and the date of the election to which it refers,

(b) prepare and certify a return setting forth—

(1) the result of the verification referred to in the preceding clause,

(2) the names of the persons elected, and the number of votes obtained by each,

(3) the number of votes declared invalid, and

(4) the number of tendered votes given;

(c) permit any candidate or his agent to take a copy of or an extract from the return.

(2) The Overseas allowance set out in column 3 above (which will reckon as pay for all purposes of the Civil Service Regulations) will ordinarily be granted only to officers of non Indian domicile, but, as an exception to this general rule, all Indian officers now in the Indian Agricultural Service on the full scale of pay will be regarded as eligible for the allowance

(3) Officers who have been promoted from the Provincial to the Imperial Service on the provisional scale of Rs 350 –35– 700 will, for the purpose of drawing future pay, be treated as having been appointed to the Imperial Service on the date on which they were provisionally appointed, but will not draw the overseas allowance Provincial Service Officers so promoted in future will, on promotion, enter the Imperial Service on a pay at the nearest multiple of Rs 50 above the pay that they are drawing at the time of

promotion and will thereafter receive increments on the ordinary scale They will rank for seniority immediately below other officers already in the Imperial Service drawing the same rate of pay

(4) Free quarters will not be provided

(5) The selection grade will not be regarded merely as a continuation of the time-scale, but promotion to it will be given as the reward of merit An officer will be eligible for promotion to the selection grade after having completed 15 years' service The selection grade will at the outset consist of 15 per cent of the present sanctioned strength of the service after deducting posts directly under the Government of India, and the number of selection posts to be allotted to each province will be fixed by the Government of India This allotment will be communicated in due course to local Governments and Administrations who will have complete discretion in making appointments to the selection posts allotted to them The principles upon which additions will be made to the number of selection posts as the sanctioned strength of the service increases will be determined later

(6) The appointment of Agricultural Adviser to the Government of India when held by an officer of the Indian Agricultural Service will carry a fixed salary of Rs 2,750 a month with a rent free house at Pusa Officers originally recruited to the Agricultural Department on special terms will be regarded as eligible, equally with regular members of the Indian Agricultural Service, for appointment as Agricultural Adviser

(7) Directors of Agriculture selected from the staff of the Department will in all provinces employing a whole-time Director be placed on a uniform scale of Rs 2,000--50- 2 250 The scale of salary admissible to Directors in other provinces will be considered when the appointment of whole-time officers of the Indian Agricultural Service to these posts is found necessary Officers originally recruited to the Agricultural Department on special terms will be eligible equally with regular members of the Indian Agricultural Service for appointment as Directors of Agriculture

(8) Principals of Agricultural Colleges will receive an allowance of Rs 150 a month in addition to their pay under the time-scale

(9) Officers of the Indian Agricultural Service who hold the posts of Heads of Sections at Pusa, as classified below, or hold other permanently sanctioned posts in those sections will be eligible for special duty allowances, provided that they have completed not less than three years' service or are in receipt of a salary not less than that of an officer in his fourth year of service under the time-scale Supernumerary officers and the Assistant to the Agricultural Adviser will not be eligible for these allowances Heads of Sections will draw allowances on the scale of Rs 200-- 50--400, but the first increment in this scale will not be admissible before an officer has completed 15 years' service

For the present the following posts at Pusa will be regarded as Headships of Sections —

(1) The Imperial Mycologist,
(2) The Imperial Economic Botanist,
(3) The Imperial Agricultural Chemist,
(4) The Imperial Agriculturist,
(5) The Imperial Agricultural Bacteriologist, and
(6) The Imperial Entomologist

Additions may be made by the Government of India to this list

The allowances for which officers holding permanent sanctioned posts at Pusa other than Headships in these Sections will be eligible will be at the fixed rate of Rs 150 per mensem An officer in receipt of one of these allowances will, on appointment to officiate as Head of a Section, be eligible for the higher allowance of Rs 200 per mensem in lieu of the allowance of Rs 150 per mensem The grant of the allowances mentioned in this sub-paragraph is in each case conditional on approved service The present graded scale of Pusa allowances is abolished

(10) Officers of the Indian Agricultural Service, however recruited, will, when serving in Burma, be eligible for a local (Burma) allowance at the normal rates according to salary

2 Except to the extent mentioned in sub-paragraphs (6) and (7) of the foregoing paragraph, the orders set out above will not apply to officers originally recruited to the Agricultural Department on special terms and who are not borne on the regular cadre of the Indian Agricultural Service Such officers will continue to serve on the special terms sanctioned in each case

3 The pay of officers who were members of the Indian Agricultural Service prior to the 1st December 1919 will be regulated according to the following principles The general rule will be that as from the 1st December 1919 they will receive pay in the new scale according to the length of their total service calculated from the date of commencement of such service. Officers who were originally appointed to the service on an initial pay of more than Rs 500 will, however, enter the new time scale on the 1st December 1919 on the pay which they were actually drawing on that date and will draw their next increment after completion of one year on that pay and subsequent increments after each completed year The incremental scale above Rs 1,000 (pay and overseas allowance) will, in the case of any officer electing for this concession be considered to have come into force from the date on which he completed a full year on the pay of Rs 1,000 a month on the old scale Article 158 of the Civil Service Regulations will not be held to apply

4 Revised rules for appointment to the Indian Agricultural Service will issue shortly

CALCUTTA IMPROVEMENT TRUST.

NOTICE UNDER SECTION 47 (3) OF BENGAL ACT V OF 1911

IT is hereby notified that the Board of Trustees for the Improvement of Calcutta have applied to the local Government for sanction to Improvement Scheme No VII-E (Central Avenue—Prinsep Street to Esplanade) which was originally published in the *Calcutta Gazette* and in local papers on the 18th June 1919.

F C FRENCH,

CHAIRMAN, *Calcutta Improvement Trust.*

CALCUTTA, *the 3rd September 1920.*

CALCUTTA IMPROVEMENT TRUST.

THE Accounts of the Calcutta Improvement Trust for the year 1918-19 having been audited by an Auditor appointed by the Local Government, the following abstract of Accounts is published in accordance with the provisions of Section 136 of Bengal Act V of 1911.

F. C FRENCH, *Chairman.*

CALCUTTA, *the 27th July 1920*

Annual Accounts for the year ended 31st March, 1919.

CHAIRMAN,

I beg to submit the accounts for the year ended 31st March, 1919.

CAPITAL ACCOUNT

RECEIPTS—The total receipts are Rs 52,50,000 against the Budget Estimate for the year of Rs 52,31,000 This includes Rs 45,50,000 from sale of Land, Rs 3,44,500 from sale of Buildings Rs 3 19,500 under Section 78, Rs. 6,300 from Premia on Leases and Rs 200 from Fees for Footings

Although the total receipts correspond closely with the Budget Estimate there have been the following variations under the different heads —

	Budget	Actual	Variations.
	Rs	Rs	Rs
Sale of Land	50,00 000	45,50,000	- 4,50,000
„ „ Buildings	2,00,000	3,44,500	+1,14,500
Under Section 78	25,000	3,19,500	+3,24,500
Premia on Leases	5,000	6 300	+ 1,300
Fees for Footings	500	200	- 300
Total	52,30,500	52,50,500	+ 20,000

The excess over the estimate in the receipts under Section 78 has arisen principally in Schemes Nos IVA, V and VIIA (Russa Road Extension) (Bhowanipore) and (Halliday Street Widening), but as compared with previous year's figures it probably shows that parties are now more favourably inclined to pay the fee in cash than to let it remain outstanding as a charge on the property

EXPENDITURE—The total expenditure for the year is Rs 6[illegible]51,000, which includes Rs 54,00,000 for land acquisition, Rs 8,62,000 for Engineering works; Rs 2,62,700 was spent on supply of stores (of which Rs. 2,07,700 was booked to Engineering works during the year, leaving a balance of Rs. 55,000 for supply of stores unadjusted) and Rs 51,000 for land acquisition office for the period from 1st April, 1917, to 31st March, 1918. The estimated expenditure was Rs 92,00,000, of which Rs 62½ lakhs was set aside for land acquisition, Rs. 19 lakhs for Engineering works and Rs 8 lakhs for stores, so that with the exception of land acquisition none of these figures has been worked up to No acquisition took place in eight of the Schemes for which a total provision of Rs 20 lakhs was estimated But in three of the Schemes where a total provision of 22 lakhs was made the land acquisition amounted to Rs. 37 lakhs or an excess of Rs 15 lakhs on the Schemes, *viz.*, Nos IVA, VII and VIIB (Russa Road Extension), (Central Avenue—Machuabazar to Beadon Street) and (Central Avenue—Kalutola Street to Bowbazar) Rupees 4,50,000 was also spent in the Chitpore Spur against which there was no Budget provision

The transfer of funds from Revenue Account to meet Capital deficits during the year was Rs. 12 lakhs

REVENUE ACCOUNT.

RECEIPTS.—The total receipts for the year are Rs 33,90,000 against an estimate of Rs 26,50,000. The increase of Rs. 7,40,000 has arisen as follows.—

	Rs.
Duty on transfer of property	5,83,000
Terminal Tax	31,000
Duty on Jute	15,000
Interest	1,07,000

Other receipts did not vary to any extent from the estimate

EXPENDITURE.—The total expenditure for the year is Rs. 4,62,000 against a Budget provision of Rs. 5,83,000.

The difference between the actuals and the estimates has arisen principally through the savings on the establishment and law expenses The only item of the expenditure to be noted is Stamp Duty on conveyances which amounted to Rs. 34,000 against an estimate of Rs. 15,000

The closing balance is Rs 1,61,42,756-2-6, of which a sum of Rs. 79,87,372-4-9 has been spent on Capital Account to meet payments in excess of Capital receipts The net balance of Rs. 81,55,383-13-9 was held as follows —

THE KING'S MOST EXCELLENT MAJESTY IN COUNCIL

WHEREAS by an Act passed in the 4th year of the reign of His Majesty King William IV, entitled "An Act for the better Administration of Justice in His Majesty's Privy Council," it is, amongst other things, enacted that it shall be lawful for His Majesty in Council from time to time to make any such Rules and Orders as may be thought fit for regulating the mode form and time of Appeal to be made from the decisions of any Courts of Judicature in India (from the decisions of which an Appeal lies to His Majesty in Council), and in like manner from time to time to make such other Regulations for preventing delays in the making or hearing such Appeals and as to the expenses attending the said Appeals and as to the amount or value of property in respect of which any such Appeal may be made

AND WHEREAS Her Majesty Queen Victoria did by Her Order in Council of the 10th day of April, 1838, approve certain Rules and Orders for regulating the mode, form and time of Appeal from the decisions of the said Courts and also certain Regulations for preventing delays in making or hearing such Appeals and as to the expenses attending such Appeals and as to the amount or value of property in respect of which any such Appeal may be made:

Whereof the Governor-General of India in Council, and all other persons whom it may concern, are to take notice and govern themselves accordingly.

ALMERIC FITZROY.

THE SCHEDULE ABOVE REFERRED TO

1 Applications to the Court for leave to appeal to His Majesty in Council shall be made within 90 days of the Decree or Order to be appealed from, subject to the provisions of Sections 4, 5 and 12 of the Indian Limitation Act, 1908

2. The preparation of the Record shall be subject to the supervision of the Court, and the parties may submit any disputed question arising in connection therewith to the decision of the Court and the Court shall give such directions thereon as the justice of the case may require

3 The Registrar, as well as the parties and their legal Agents, shall endeavour to exclude from the Record all documents (more particularly such as are merely formal) that are not relevant to the subject-matter of the Appeal, and, generally, to reduce the bulk of the Record as far as practicable taking special care to avoid the duplication of documents and the unnecessary repetition of headings and other merely formal parts of documents, but the documents omitted to be copied or printed shall be enumerated in a manuscript list to be transmitted with the Record

4 Where in the course of the preparation of a Record one party objects to the inclusion of a document on the ground that it is unnecessary or irrelevant, and the other party nevertheless insists upon its being included, and the Court allows the document to be included, the Record, as printed (whether in India or in England) shall, with a view to the subsequent adjustment of the costs of, and incidental to, such document, indicate in the index of papers, or otherwise, the fact that, and the party by whom, the inclusion of the document was objected to

5 Where the Record is printed in India, the Registrar shall, at the expense of the Appellant, transmit to the Registrar of the Privy Council 40 copies of such Record, one of which copies he shall certify to be correct by signing his name on, or initialling every eighth page thereof and by affixing thereto the seal, if any, of the Court

6 Where the record is to be printed in England, the Registrar shall, at the expense of the Appellant, transmit to the Registrar of the Privy Council one certified copy of such Record, together with an index of all the papers and exhibits in the case No other certified copies of the Record shall be transmitted to the Agents in England by, or on behalf of, the parties to the Appeal

7 Where there are two or more Appeals arising out of the same matter, and the Court is of opinion that it would be for the convenience of the Lords of the Judicial Committee and all parties concerned that the Appeals should be consolidated, the Court may direct the Appeals to be consolidated

8 An Appellant who has obtained a certificate for the admission of an Appeal may, at any time prior to the making of an Order admitting the Appeal, withdraw the Appeal on such terms as to costs and otherwise as the Court may direct

9. Where an Appellant, having obtained a certificate for the admission of an Appeal, fails to furnish the security or make the deposit required (or apply with due diligence to the Court for an Order admitting the Appeal), the Court may, on its own motion or an application in that behalf made by the Respondent, cancel the certificate for the admission of the Appeal, and may give such directions as to the cost of the Appeal and the security entered into by the Appellant as the Court shall think fit, or make such

further or other Order in the premises as, in the opinion of the Court, the justice of the case requires.

Where an Appellant, whose Appeal has been admitted, desires, prior to the despatch of the Record to England, to withdraw his Appeal, the Court may, upon an application in that behalf made by the Appellant, grant him a certificate to the effect that the Appeal has been withdrawn, and the Appeal shall thereupon be deemed, as from the date of such certificate, to stand dismissed without express Order of His Majesty in Council, and the costs of the Appeal and the security entered into by the Appellant shall be dealt with in such manner as the Court may think fit to direct

12 Where an Appellant, whose Appeal has been admitted, fails to show due diligence in taking all necessary steps in connection with the preparation of the Record the Court may, either on its own motion or on the application of the Respondent, call upon the Appellant to show cause why a certificate should not be issued that the Appeal has not been effectually prosecuted by the Appellant, and if the Court sees fit to issue such a certificate, the Appeal shall be deemed, as from the date of such certificate, to stand dismissed for non-prosecution without express Order of His Majesty in Council, and the costs of the Appeal and the security entered into by the Appellant shall be dealt with in such manner as the Court may think fit to direct

13 Where at any time between the admission of an Appeal and the despatch of the record to England, the Record becomes defective by reason of the death, or change of status, of a party to the Appeal the Court may, notwithstanding the admission of the Appeal, on an application in that behalf made by any person interested, grant a certificate showing who, in the opinion of the Court, is the proper person to be substituted, or entered, on the record in place of, or in addition to, the party who has died, or undergone a change of status, and the name of such person shall thereupon be deemed to be so substituted or entered on the record as aforesaid without express Order of His Majesty in Council. If, in the opinion of the Court, there has been undue delay in making this application, the Court may order the Appellant, or the party interested, to take all necessary steps to perfect the Record within such time as the Court may direct, and, if he fails to comply with such Order, the Court may call upon him to show cause why a certificate should not be issued that the Appeal has not been effectually prosecuted, and if the Court sees fit to issue such a certificate, the Appeal shall be deemed, as from the date of such certificate, to stand dismissed for non-prosecution without express Order of His Majesty in Council, and the costs of the Appeal and the security entered into by the Appellant shall be dealt with in such manner as the Court may think fit to direct.

14. Where the Record subsequently to its despatch to England becomes defective by reason of the death, or change of status, of a party to the Appeal, the Court may, upon an application in that behalf made by any person interested, cause a certificate to be transmitted to the Registrar of the Privy Council, showing who, in the opinion of the Court, is the proper person to be substituted or entered, on the Record, in place of, or in addition to, the party who has died, or undergone a change of

status. If, in the opinion of the Court, there has been undue delay in making this application, the Court may order the Appellant, or the party interested, to take all necessary steps to perfect the Record within such time as the Court may direct, and, if he fails to comply with such order, the Court shall report the matter to the Registrar of the Privy Council

24 Every respondent who has entered an appearance shall be entitled to inspect the appellant's list and at his own expense, to obtain a copy of the whole or of any portion thereof

25 Every such respondent shall within one week after service upon him of the notice required by Rule 23 deliver to the Deputy Registrar a list in the form in Rule 16 of the papers, other than those inserted in the appellant's lists and relevant to the subject matter of the appeal to which such respondent desires that reference shall be made by the Court at the hearing of the appeal and which shall be inserted in the paper-book at such respondent's expense Such list shall be termed "The Respondent's List." When the respondent intends to take any objection to the decree which he could have taken by way of appeal, and the taking of which is subject to the proviso contained in Order XLI, Rule 22 of the Code of Civil Procedure, any papers relevant to maintain this objection shall be included in such respondent's lists

26 If the respondent considers that any paper or portion of paper which ought to have been inserted in the appellant's lists under the provisions of Rule 17, has been omitted therefrom in violation of these provisions, he may, within one week after service upon him of the notice required by Rule 23 and after giving notice to the appellant of his intended application, apply to the Registrar for an order that such paper or portion of a paper be inserted in the paper-book of the case at the cost of the appellant. When the respondent though he has not appealed against any part of the decree, intends to support such decree on any of the grounds decided against him in the Court below (Order XLI, Rule 22 of the Code of Civil Procedure) he is entitled to have included in the paper-book at the cost of the appellant any papers relevant to such ground

27 If one party objects to the inclusion of a document on the ground that it is unnecessary or irrelevant

and the other party nevertheless insists upon its being included, and the Registrar allows the document to be included, the lists shall clearly indicate the fact that, and the party by whom, the inclusion of the document was objected to.

28. The Registrar, as well as the parties and their legal agents, shall endeavour to exclude from the record all documents (more particularly such as are merely formal) that are not relevant to the subject matter of the appeal, and generally, to reduce the bulk of the record as far as practicable, taking special care to avoid the duplication of documents and the unnecessary reptition of headings and other merely formal parts of documents

29. The appellant's and respondent's lists shall each bear a certificate under the hand of the Vakil for such appellant or respondent in the following form :—

I., A. B, Vakil for , do hereby certify that I have carefully examined this list with reference to the provisions of Rule 28, Chapter IX of the Appellate Side Rules, and declare that in by judgment it is necessary to include in the paper-book of the appeal every document or portion of a document included in the list in order to the decision of the appeal.

30 If the respondents do not enter an appearance, or do not deliver the list directed by, and within the time prescribed by Rule 25 and if no order be made under Rule 26, the paper-book shall be prepared in accordance with the appellant's lists.

31 When two or more appellants or respondents have the same interest in the appeal, one set of lists only shall be required from all such appellants or respondents Appellants or respondents having separate interests shall deliver separate sets of lists In such cases the principle of Rule 37 shall apply.

32. If any of the papers which must be inserted in the appellant's lists or in the respondent's lists, was previously printed in a former paper-book, the fact of its having been so printed must be stated in the list in which such paper is inserted Such papers shall not be printed unless the Registrar otherwise directs

33 No paper in the record of the case, which is not inserted in the appellant's or respondent's lists or ordered to be included in the paper-book under Rule 26 and printed in the paper-book of the case or in a previous paper-book shall be referred to at the hearing of the appeal without the special leave of the Court But this Rule shall not preclude the Court from referring to any paper to which it considers a reference necessary for the ends of justice

34 The Deputy Registrar shall, within three days after the delivery by the respondent of his list, make and deliver to such respondent an estimate of the cost of preparing his portion of the paper-book

35 In cases in which the estimate for the cost of preparing the respondent's portion of the paper-book does not exceed Rs 1,000, the respondent shall deposit with the Accountant of the Court the whole amount of the estimate in accordance with the following table:—

36 In cases in which the estimate for the cost of preparing the Respondent's portion of the paper-book exceeds Rs 1,000, the Respondent shall deposit with the Accountant of the Court the sum of Rs 1,000, within five weeks from the date of the service of such estimate. The balance of the sum due on such estimate from such Respondent shall be paid within two weeks from the date of the deposit of the sum of Rs 1,000

37 If it subsequently appears that the amount deposited by either party to the appeal is insufficient to defray the cost of preparing his portion of the paper-book, or a supplementary paper-book after remand, the Deputy Registrar shall estimate the additional amount required and shall give notice thereof to such party. Such additional amount shall be deposited by such party with the Accountant of the Court within two weeks after service upon him of such notice No work in the matter of the preparation of the paper-book, which is likely to cost more than the sum deposited, shall be undertaken until such additional deposit has been made, unless the Registrar shall otherwise direct

38 When separate appeals have been preferred by different persons against the same decree, complete lists of the documents which the parties wish to include in the paper-book shall be delivered by the parties to each appeal. Common matter shall appear in one paper-book only, the other paper-books containing references to the pages of the paper-book in which such common matter appears. In

such cases the Deputy Registrar shall, subject to the order of the Registrar, apportion between the parties concerned the cost of preparation in respect of matter common to all or any of the parties The estimates for the cost of the preparation of Parts I and III of the paper-books in such cases shall not be served on the parties until such apportionment has been made This rule shall also apply when two or more separate appeals are preferred in analogous cases

39 If the Appellant fail to deliver his lists of papers in accordance with Rule 19, or if the Appellant or respondent fail to make the deposit or additional deposit required by Rules 21 and 37, the Deputy Registrar shall lay the matter before the Registrar, who may, in case of default by the Appellant, cause the appeal to be set down for hearing by the Division Court having jurisdiction in respect thereof; and such Court may, unless satisfied that there was reasonable ground for the default, direct the appeal to be dismissed for want of prosecution, or may pass such other order as may seem proper in the circumstances of the case

40 The Deputy Registrar shall have Part I of the paper-book prepared in the office of the Court, so that it may be ready—

(a) If no deposit of the costs for the preparation of such part of the paper-book beyond the initial deposit required under Rule 28, Chapter V is necessary within one month of the receipt of the record

(14) filing miscellaneous documents not referred to above with the Court-fee Clerk for cancellation of the Court-fee stamps (if any) attached to such documents and for distribution to the sections concerned.

II.—INSTRUCTIONS TO BENCH OFFICERS

(1) (a) Intimation is frequently received from the Lower Courts that records are returned by this office in a torn condition, and it is also sometimes intimated that papers belonging to the records are missing.

(b) As a rule, Vakils, etc., at the hearing of appeals, are allowed to inspect the original records, which, for the purpose, are made over to them bodily, and are thus liable to be roughly handled, and occasionally also, after the hearing, documents are found to be missing.

(c) The rules of Court enable parties to obtain copies of the record for the purposes of the hearing. It may be necessary to refer to original documents, the *factum* of which is the subject of controversy, or when any questions arise as to the correctness of copies of translations, but it is not intended that the originals should be used at the hearing for every ordinary purpose.

(2) When the inspection of any original document is allowed at the hearing by the Court, the Peshkar, or other Bench Officer in attendance, should, for that purpose, make over to the Vakil concerned the section of the file containing the document required for inspection. After inspection he is required to replace it in its proper position in the file with his own hands. He must see that exhibited documents in a case are not removed from the exhibit volume in which they are bound.

(3) He should also watch the inspection, and be held responsible for the documents.

(4) When inspection of the entire record is allowed, the Peshkar, or other Bench Officer in attendance, should see that the record is handled with due care. This is all the more necessary, as documents on the records of the Lower Courts are not infrequently written on flimsy paper which may be easily injured.

(5) Peshkars and other Bench Officers who have the custody of records need scarcely be reminded that they are responsible for all such records from the date on which they are transferred to them by the Section Record Clerk, until they are delivered by them for despatch to the Lower Courts.

(6) They should see that the documents given out for translation under the rules for the preparation of paper-books are replaced on the record before an appeal is brought on for hearing, and they are informed that they will be held responsible for any omission in the performance of his duty.

(7) When, after an inspection at the hearing, any documents are missing, or found to be injured, the fact should be immediately reported in writing to the Registrar or Deputy Registrar. This should be done by the Peshkar through the Bench Clerk, and a copy of the report and of such order as may be made thereon should be placed on the record of the case, and the original report and order placed on the appeal file of the Court.

(8) Bench Clerks (who are "generally responsible for the due performance of all duties of a ministerial nature connected with the Division Bench to which they are attached") should see that the above instructions are carefully attended to by the Subordinate Bench Officers.

(9) They should see that the records are returned by the Subordinate Bench Officers to the office as soon as a case has been heard.

(10) They will have time to attend to this duty on Saturdays, when the Courts, as a general rule, do not sit

(11) They shall carefully and promptly carry out the direction in Rule XI, page 96, *ante*, regarding release orders passed by the High Court

N.B—In every appeal admitted *in formâ pauperis* in which the appellant may have been successful the Board of Revenue shall be furnished with a copy of the decree

III.—RULES FOR ADMISSION OF TRANSLATORS.

(1) Whereas it appears desirable to ascertain the qualifications of persons who desire to be employed as Translators in the High Court by a formal and uniform test, the following rules have been framed by order of the Chief Justice for that purpose.—

(2) Any person being a candidate for the office of Translator or Sworn Examiner of translations in appeals to His Majesty in Council, or of Translator in appeals to the High Court exceeding Rs 10,000 in value, may, after satisfying the Chief Justice that he is in other respects a fit person to be appointed to such office, be furnished with a letter to the Examiners, from time to time to be appointed, requesting that such candidate may be examined

(3) The candidate, on presenting such letter, and after payment of the fee of Rs 10, shall be examined at such time and place as the Examiners may direct

(4) The Examination shall comprise the following parts:—

(*a*) A written translation into the vernacular language in which the appointment as Translator is sought, of a chosen printed passage from a classical English Author extending to not less than 30 lines of an ordinary octavo page

(*b*) A written translation in the same vernacular of a manuscript paper, to be furnished by the Registrar to the Examiners, being a judgment, deposition, or document taken from the *misl* of some decided case

(*c*) A written translation into English of a similar paper in the same vernacular to be likewise furnished by the Registrar

(*d*) A *vivâ voce* rendering from the vernacular into English of at least six short sentences to be read out by the Examiner and a like rendering *vice versâ* from English into the vernacular

(5) To each written translation the Examiner shall assign a reasonable time within which the task is to be completed and no translation shall be accepted which is not completed within the time so fixed

(6) A candidate who desires to qualify in more than one language shall undergo a like examination in each language, paying the same fee for each

(7) The candidate shall, if he pass the examination to the satisfaction of the Examiner, receive from him a certificate to that effect

(8) The Chief Justice reserves to himself the power of subjecting any of the existing Translators or Examiners to the test above prescribed or of requiring the passing of such test as a condition pre-

cedent to the promotion of any person employed in the Translation Department.

IV.—INDEBTEDNESS OF OFFICERS

(Order passed by the Hon'ble Sir Richard Garth, Kt., Chief Justice, on the 22nd August, 1881.)

(1) The attention of the Chief Justice has been directed, more especially of late, to the unhappy state of indebtedness which appears to prevail amongst certain officers attached to the High Court Establishment.

(2) It is feared that the pernicious custom of borrowing money from usurers and others, and of becoming sureties for one another for the purpose of obtaining such loans, is only too prevalent. Many officers with good salaries, particularly amongst the Eurasian class, have been placed in serious difficulty by this system, and some of them have even been obliged to take the benefit of the Insolvent Act.

(3) With a view to putting a stop to this state of things the Chief Justice is pleased to notify as follows:—

(a) Any officer of the Court, taking the benefit of the Insolvent Act in consequence of having lent money to or become security for others, after this notice, will be dismissed from his appointment.

(b) No leave will be allowed to any officer against whom process has been issued for debt, or who is found to be keeping out of the way to avoid his creditors.

(c) Any officer who is found hereafter to be in difficulties, in consequence of having become security for his friends after this warning, will run the risk of dismissal, degradation, or not being promoted, according to the circumstances of each particular case.

V.—DISCLOSURE OF INFORMATION.

(Order passed by the Hon'ble Sir Richard Garth, Kt., Chief Justice, on the 19th September 1881, forbidding the disclosure by officers of the High Court of information taken from papers in the High Court.)

(1) By some means or other, information of an important and private character, which ought to have been strictly confined to the High Court, has found its way into the newspapers. It seems quite impossible that this information could have been disclosed, except through some officer of the Court, and it is imperatively necessary, in the interest of the public service, to prevent any such disclosures.

(2) If any similar disclosures should occur, any officer of the Court, through whose hands the papers containing the disclosed information may have passed, will be liable to be dismissed, or transferred to some other post.

(3) All officers, for the future, who may have the charge of papers for ever so short a time, will endorse their initials and date of receipt upon them, as directed by the head of the department, so that it may always be ascertained without enquiry through whose hands the papers have passed.

VI.—JUDGES' LIBRARY

(1) Every book on receipt will be marked on the title-page and on the edges with the red seal of the Court and the book-plate of the Court will be affixed to each book of value.

(2) On the title-page the date of receipt and registered number will be entered within the seal, and the book will then be entered in the Register of books received

(3) All new books will be placed in their appropriate book-cases by the end of the week in which they are received in the Library.

(4) Before being placed in the book-case, each book will receive a number and be entered on a card for the Card Index. Text-Books will also be entered on the appropriate Subject Index Cards. Each new book will also be entered in the Librarian's interleaved copy of the printed Catalogue All new books with their Index Cards and numbers will be shown to the Registrar before they are put in the shelves in order that he may check the classification.

(5) When a new edition of a text-book is received, the preceding edition will be removed to the lower shelves of the book-cases, and if a still earlier edition is already on the lower shelves, it will be removed from the Library and placed among obsolete books. The serial number of the superseded editions will be retained for the books which take their place. In other cases a new book will be given a subsidiary number, *e.g.*, if a book by its alphabetical position comes in between Nos 522 and 523 it will be numbered 522-A.

(6) When books have to be distributed to the Judges or others they will be entered in a Distribution Register, in which the receipts of the recipients will be taken

(7) Books belonging to the Library will ordinarily be kept in the Library under the charge of the Librarian, but a supply of such books as are in constant requisition in Court will be made over to the Clerk of each Bench The Librarian will check these books once every three months and the Clerk of the Bench will be held responsible for any books missing.

(8) In addition to the Library Catalogue, each Bench Clerk will keep, in a bound book, a catalogue of the books in his custody. On any change of officers, the clerk taking charge will sign a receipt to be entered in this book acknowledging the receipt of the books. In case he finds that any in the list are missing, he will report the matter for the orders of the Registrar

(9) The Librarian will retain all requisitions for books until the books are returned If any book is not returned within a month, he will himself enquire about it.

(10) Obsolete books will be kept in racks apart from the books in current use

(11) The Librarian is responsible for seeing that the correct titles are placed on the backs of the books bound and that no books are bound unnecessarily.

(12) The Librarian is responsible for seeing that all the books in three book-cases are thoroughly dusted every Saturday, in order that every book in the Library may be dusted at least once in two months

(13) Books are to be replaced on the shelves by the Librarian only, and on the day on which they are returned to the Library.

Appellant within two weeks after demand No work in the matter of the preparation of the paper-book, which is likely to cost more than the sum deposited, shall be undertaken until such additional deposit has been made, unless the Registrar shall otherwise direct

57 In case of the Appellant failing to make the necessary deposit under Rule 28, Chapter V, and Rule 56 of this Chapter, the Deputy Registrar shall lay the matter before the Registrar who may at once cause the appeal to be set down before the Division Court to which it belongs, and if the Appellant does not satisfy the Court as to his delay, his appeal may be dismissed for want of prosecution, or the Court may pass such other order as it may deem proper

58 When the case is ready for hearing, the Deputy Registrar will furnish the Advocates or Vakils engaged on either side with copies of the paper-book, for which deposit shall have been made as aforesaid The issue of paper books to the Advocates or Vakils will be notice to them that the case is ready for hearing

59 An account shall be kept of so much of the actual cost of preparing and printing the paper-book in each Second Appeal exceeding Rs 50 in value as is chargeable to the Appellant, who will be entitled to a refund of the excess of the sum paid by him over the said actual cost

60 Additional paper-books over and above those which may be supplied to the parties free of charge under these Rules shall be charged for

61 In cases governed by one judgment, the Registrar, on application, may make a special order

NOTIFICATION—By the Government of India, Department of Education

IN exercise of the powers conferred by section 15 of the Indian Census Act, 1920 (IV of 1920), the Governor General in Council is pleased to make the following rules for taking the census of cantonments and of troops on the march and elsewhere —

RULES FOR TAKING THE CENSUS OF CANTONMENTS AND OF TROOPS ON THE MARCH AND ELSEWHERE.

A.—CANTONMENT BAZARS AND CIVIL LIMITS.

1 *Agency and Rules*—The census of so much of each cantonment as lies beyond regimental or other purely military lines will be taken by the

Cantonment Magistrate acting under the instructions of the civil authorities of the district or State The rules to be followed are those laid down in the Provincial Census Codes

B —MILITARY LIMITS

2 *Agency*—Within regimental lines, or other purely military limits, the census will be taken by the military authorities The operations in military limits will be placed in general charge of a selected officer, who should, if possible, be conversant with the vernacular language in which the census record will be prepared for natives of India resident within military limits

3 *Determination of boundaries*—The determination of the purely military limits within the contonment should be undertaken, *not later than the 15th September 1920*, by the military and civil authorities in consultation with each other The boundary decided on should be shown on a map, so that both may know clearly the areas for the enumeration of which they are respectively responsible

4 *Scope of enumeration.*—The census to be taken by the military authorities under these orders will include all persons of whatever age, sex, race, or profession, who, on the night of the 18th March 1921, are temporarily or permanently residing within military limits In other words, it will include all persons who, though ordinarily residing elsewhere, may on that night be stopping temporarily within those limits, and also those who, while actually living and taking their meals within the same, may be absent for a few hours on night duty, etc

5 *Way in which census record will be prepared*—European officers and civilian Europeans and Anglo-Indians of good standing will, if they desire be supplied with Household Schedules on which to enter the necessary particulars for themselves, their families and their European or Anglo-Indian servants For all other persons the census record will be prepared by enumerators in the manner described further on

6 *House list*—A list should be prepared in the following form, *not later than the 15th October 1920*, showing every house or other building in the area in question which is inhabited, or is likely to be inhabited, on the night of the census —

HOUSE LIST

District *Cantonment or Station.* *Regiment*

Serial No. of house	Description of house (i e, barracks guardhouse, dwelling house married quarters, followers' quarters, etc.)	Name of chief occupant, or officer in charge	Usual number of occupants	Language in which the record will be prepared.	Whether household schedules required—see rule 5 Enter "yes" or "no" against each house
1	2	3	4	5	6

HOUSE LIST.

7 *Definition of house.*—If any large building has been divided into separate dwellings or tenements such as married quarters, occupied by distinct families or groups of persons, each of these dwellings should be treated as a house and given a separate number in column 1 of the House List. Large buildings not so divided, such as the quarters of unmarried privates, should be given only one number.

Huts occupied by Indian servants should be numbered separately from the houses to which they belong Each block of servants' huts should be given a number of its own

8. *House numbering.*—While the above list is being prepared, the number entered against each house should be painted conspicuously on the building, so that it may be easily recognised by the enumerator

9 *Formation of blocks and circles*—After the numbers have been painted, the house should be arranged in compact blocks, and these blocks should be grouped into circles No block should contain more than 250 persons, and no circle more than 2,500 Separate blocks should be formed for Indian followers and servants attached to British regiments or employed by the officers

10 *Appointment of supervisors and enumerators*—For each block an enumerator should be appointed, and for each circle a supervisor The enumerator is the person whose duty it will be to fill in the Census Schedules for all persons in his block, except those for whom Household Schedules will be issued as provided in rule 5 The supervisor is responsible for seeing that all the enumerators in his circle understand their duties and carry them out satisfactorily Non-commissioned officers of the regiments to be enumerated will usually be selected for these posts Blocks occupied by Indian followers and servants should be placed in charge of enumerators who are well acquainted with their language and customs, such as the regimental Munshi or a Commissariat Indian official.

11 *Circle Register*—A Circle Register should then be drawn up in the following form and forwarded, *not later than the 15th November*, to the District or Political Officer, as the case may be —

CIRCLE REGISTER

District *Cantonment or Station* *Regiment*

Serial No of circle	Name of supervisor	Serial No of block	Name of enumerator	Number of house in each block	Number of persons in each block	Language in which the record will be prepared	Number of houses for which Household Schedules will be required	Remarks
1	2	3	4	5	6	7	8	9

12. *Supply of forms.*—On receipt of the Circle Register the District or Political Officer will at once calculate the number of forms (English and vernacular) of each kind required at the rate of--

(*a*) 1 cover per block,
(*b*) 1 Block List per block,
(*c*) 1 General Schedule for every 12 persons,
(*d*) 2 Household Schedules for each house in which such schedules will be used,

without adding 25 per cent for emergencies, etc —

He will also supply for each supervisor one cover with five General Schedules and a Block List stitched into it This will serve to show how the forms should be bound up to make the Enumeration Books, and will also be useful for instruction purposes as explained in rule 14

13. *Block List.*—As soon as the forms are received, the Block List showing the number and description of the houses in each block should be written up from the House List.

14 *Instruction of census staff.*—The supervisors and enumerators must study very carefully the instructions on the first two pages of the cover and the Specimen Schedule on the back of it. The officer in charge of the census must satisfy himself that they clearly understand their duties He should make them fill in a few entries each in the bound copy of the Enumeration Book supplied to supervisors for instruction purposes and should correct mistakes and give such verbal explanations as are found to be necessary

15 *The preliminary enumeration*—*Early in February 1921*, each enumerator should go round his block and enter in his Enumeration Book full particulars regarding every man, woman, or child whom he finds residing therein, including persons temporarily absent who are expected to be back by the 18th March This work should be completed by the *end of February*. The entries thus made must be carefully examined and corrected by the supervisor The officer in charge of the census should himself examine as many entries as possible in each block, in order to make sure that they have been properly made The houses should be taken in the order in which they are entered in the House List, and exact observance of the instructions must be rigidly enforced Europeans and Anglo-Indians of the class referred to in rule 5 need not be enumerated on this occasion, but Household Schedules should be distributed to them on the 16th March and the signature of the head of the household taken in the last column of the Block List

16 *The Final Census*—After gunfire on the night of the 18th March, 1921 the enumerator should again go over his block and bring the preliminary record up to date by striking out the entries for persons who have died or gone away and entering the necessary particulars for new arrivals He will thus complete the census

17 *Rough totals—Collection and despatch of forms*—On the morning of the 19th March the enumerators will collect all the Household Schedules that have been issued and sew them into their books They will then assemble at some place previously fixed by the supervisor and prepare under his instructions the Abstracts inside the covers, showing the number of houses and persons, male and female, in each block After testing the figures the supervisor will compile them into a circle summary, showing the number of persons in the circle, and the various summaries will then be combined into a single statement by the officer in charge of the census and sent to the District or Political Officer, as the case may be The Enumeration Books should then be packed up at once and sent to the same officer They should be arranged carefully by blocks and circles according to the order shown in the Circle Register

C—TROOPS ON THE MARCH AND ON DUTY OUTSIDE CANTONMENTS

18 *Troops on the march.*—The census of regiments on the march and of troops on duty will be taken by the officer in command The census will include all persons, of whatever sex, age, race or profession, who are marching with the troops The officer in command should be provided with the requisite forms *at the cantonment from which the troops start.* He should arrange to make one of the weekly halts on the 18th March 1921 If the preliminary enumeration was not effected before the troops left their last cantonment, the schedules should be written up during the day They should be checked in the usual manner after dark

19 *Troops in trains*—If the regiment or detachment be travelling by rail on the night of the census, the enumeration of the actual troops should be effected by the officer in command at the first place at which the men alight. The Railway authorities will enumerate the families, servants and followers travelling with them in accordance with the general rules for the enumeration of persons travelling by rail.

20 *Despatch of forms*—The Enumeration Books for regiments or detachments on the march will be sent to the Magistrate of the district or the Political Agent of the State in which they are enumerated The place where they were encamped at the time of the census must be reported to the same officer A telegram must also be sent to him stating the number of persons (total males and females) enumerated.

21. *Troops beyond the Frontier.*—Troops or military outposts in tracts of which no general census is being taken will be recorded in the final tables as belonging to the cantonment or station within the administrative frontier from which, or in connection with which, they are detailed, or which is nearest to the post they occupy. Their Enumeration Books will be sent to the cantonment or station.

D.—GENERAL.

22. *Issue of special instructions* —The Provincial Superintendent of Census Operations will issue the necessary subsidiary instructions and arrange for the supply of forms, etc

23 *Census expenditure.*—Cantonment funds will bear all charges in connection with the actual enumeration, but the requisite forms will be supplied free of charge. Government will bear all charges in connection with the compilation of the results

FOREIGN TRADE

Simla, the 11th September 1920

No 6034—The following extract from the Board of Trade Journal, dated the 29th July 1920, is republished for general information with reference to the Notification in this Department No 2652, dated the 5th June 1920 —

CUSTOMS REGULATIONS AND TARIFF CHANGES

FRANCE AND ALGERIA.

MODIFICATION OF IMPORT RESTRICTION REGIME.

By a French Presidential Decree dated 22nd July, and published in the " Journal Official " of the 25th July, the import prohibitions imposed in April last (*see* pages 627 to 630 of the issue of this " Journal " for the 6th May) have been withdrawn except in respect of a very limited number of goods. Various goods of classes formerly prohibited to be imported are now subject to increased Customs duties (the " co-efficients of increase " for such goods having been augmented by the present Decree) and others can now be

imported freely, on payment of Customs duties and the "co-efficients" established in July last.

Detailed particulars of the present Decree are given below :—

MINISTERIAL REPORT PREFIXED TO THE DECREE.

Prefixed to the Decree is a Report to the President of the French Republic from the Ministers submitting the Decree for signature The Report is as follows —

To the President of the French Republic—

On the 23rd April last you signed a Decree prohibiting the importation into France and Algeria of a large number of goods which were either "articles of luxury" or products which were not indispensable The Government regarded this measure as a purely provisional one which should be amended as soon as the situation had improved.

The advantages which it was hoped would follow from this measure were in fact soon realised, in particular, the price of foreign credits became less almost immediately, as the result of an appreciable improvement in our Exchange, and this has had very good effects upon the general prices of goods.

The purposes in view having been obtained, the restrictions should now disappear, except in the case of certain articles which for special reasons cannot yet be freed, the maintenance of the restrictions would, in fact, impede the development of French industrial activity, and might do away with the favourable result already obtained.

For these reasons the Government has decided to re-establish, as far as possible, freedom as regards imports, and the statements to this effect which the Government have recently made have been unanimously approved by Parliament

On the other hand, the Government consider that it is necessary, in so far as concerns articles of luxury in respect of which the prohibition is withdrawn, to revise the schedule of "co-efficients of increase of Customs duties" resulting from the Decree of 8th July, 1919, in such a way as to re-establish for such goods the same *ad valorem* incidence of duty as existed before the war In no case are the new co-efficients to be greater than the relation between present values and those of 1913 It is only a question (this fact must be emphasised) of a readjustment, and not of an effective increase, of Customs duties

The Government consider that they are following the best interests of the nation in adopting these measures They hope that traders and consumers will do their utmost not to abuse the freedom of importation which is now restored, but that under the new arrangements they will take all necessary steps and make all necessary efforts to improve the economic situation of France by the constant lowering of the cost of living and, what is more important still, by the development of exports

We have, therefore, the honour, to submit herewith the annexed Decree, and hope you will be good enough, should you approve, to affix your signature

TRANSLATION OF PRESIDENTIAL DECREE.

The following is a translation of the Presidential Decree, which is dated 22nd July—

Article 1—The Decree of 23rd April, 1920, is abrogated.

Article 5—By way of exception, derogations from the prohibition of import may be authorised by the Minister of Finance on the advice of the Ministerial Departments concerned

Article 6.—The list of "co-efficients of increase" established by the Decree of 8th July, 1919, and subsequent Decrees, is completed and modified in conformity with the provisions of Schedule B annexed to the present Decree

NOTIFICATION.

No. 3786A.D.—The 28th September 1920.—The following is substituted for the existing paragraph 5 of rule 26 in section III of the Rules for the Departmental Examination of Assistant Magistrates and others, dated the 14th September 1912 :—

"Probationary Assistant Superintendents of Police will be required to appear for the Lower Standard in Law at the first half-yearly examination held after their arrival at the school ; but at subsequent examinations they will be permitted to present themselves for examination in that subject for both standards at the same time. If, however, any such officer liable to pass in the first paper without books by the Lower Standard in Law obtains the minimum marks prescribed for passing in the same paper without books by the Higher Standard, he will be adjudged to have passed both in the Lower and the Higher Standards in this paper. Probationers will also be required to appear for the Lower Standard in Bengali at the first half-yearly examination held after their arrival at the school, but unless they have had a working knowledge of Bengali before they became probationers or have shown unusual aptitude for the language in their studies at the school, it is unlikely that they will prove successful, and no discredit will attach to failure They should, however, be able to pass at the second half-yearly examination, at which (unless they have passed earlier) they will be required to appear in Bengali by the Lower Standard, but will not be allowed to appear in the examination by the Higher Standard. At subsequent examinations they will be permitted to present themselves for examination, either for the Higher Standard, if the Lower Standard has already been passed, or for the Lower Standard or for both Standards at the same time.

(3) The President may, if he thinks fit, prescribe a time-limit for speeches.

Voting of grants

29. (1) Not more than twelve days shall be allotted by the Governor for the discussion of the demands of the local Government for grants.

Supplementary or additional grants

32. (1) An estimate shall be presented to the Council for a supplementary or additional grant when—

(i) the amount voted in the Budget of a grant is found to be insufficient for the purposes of the current year, or

(ii) a need arises during the current year for expenditure for which the vote of the Council is necessary upon some new service not contemplated in the Budget for that year.

(2) It shall be the duty of the Committee to bring to the notice of the Council—

(i) every re-appropriation from one grant to another grant;

(ii) every re-appropriation within a grant which is not made in accordance with the rules regulating the functions of the Finance Department, or which has the effect of increasing the expenditure on an item the provision for which has been specifically reduced by a vote of the Council; and

7. The petitioner shall have the right to begin unless the defendant admits the facts alleged by the plaintiff and contends that either in point of law or on some additional facts alleged by the defendant the petitioner is not entitled to any part of the relief which he seeks, in which case the defendant shall have the right to begin.

TRADE AFTER THE WAR

Simla, the 9th October 1920.

No 6783.—The following Notice to Importers in Great Britain and Ireland and to Exporters in British Overseas Dominions on the subject of preferential duties of Customs in Great Britain and Ireland on goods consigned from and grown, produced, or manufactured in the British Empire issued by His Majesty's Board of Customs and Excise is published for general information in continuation of this Department Notification No. 7386, dated the 20th September 1920:—

NOTICE TO IMPORTERS IN GREAT BRITAIN AND IRELAND and to EXPORTERS IN BRITISH OVERSEAS DOMINIONS.

Preferential Duties of Customs in Great Britain and Ireland on Goods Consigned from and Grown, Produced, or Manufactured in the British Empire.

1. With a view to conferring a preference in the case of Empire products, the duties of customs on the goods specified in Appendix A are charged at the reduced rates shown in the second column of that Appendix, provided the goods are shown to the satisfaction of the Commissioners of Customs and Excise to have been (1) consigned from, and (2) grown, produced, or manufactured in, the British Empire. The "British Empire" for this purpose means all British Dominions outside Great Britain and Ireland, including British India and Indian Native States, and all British Protectorates Any territories which may hereafter come under His Majesty's Protection, or in respect of which a Mandate of the League of Nations may be exercised by the Government of any part of His Majesty's Dominions, may be included by Order in Council.

2. Goods are not deemed to have been manufactured in the British Empire unless such proportion of their value as is prescribed by regulations made by the Board of Trade (printed as Appendix B) is the result of labour within the British Empire. This proportion has for the present been fixed at 25 per cent. of the factory or works cost to the manufacturer for all manufactured articles except manufactured tobacco, refined sugar, molasses, and extracts from sugar, for which the proportion is fixed at 5 per cent. (but see paragraph 3).

Each article is to be considered separately in applying the percentage test. The factors which may be taken into account in arriving at the total value and the proportion of Empire labour are laid down in Regulations 4 and 5 (Appendix B)

When manufactured goods are not liable to duty in themselves, but only in respect of the dutiable ingredient or ingredients they contain, preference can only be granted in respect of such of the ingredients as themselves satisfy the requisite conditions (*see* paragraphs 8-10 below).

3. Where the Board of Trade is satisfied as respects any class of goods to which the preferential rates apply that those articles are to a considerable extent manufactured in the British Empire from material which is not wholly grown or produced in the Empire, the Board may by order direct that the preferential rate shall be charged only in respect of such proportion of those goods as corresponds to the proportion of dutiable material used in their manufacture which is shown to have been grown or produced in the Empire

This provision has been applied by Order of the Board of Trade (Appendix C) to manufactured tobacco, refined sugar, molasses and extracts from sugar, *e.g* syrup. It is in view of this limitation that the percentage under paragraph 2 has been fixed as low as 5 per cent for these articles, the combined effect of the two rules being to allow preference where any of these articles are the result of an appreciable amount of Empire labour, but to confine it to the extent to which the finished article is the result of Empire material.

4. The dutiable articles which for the purpose of charging the preferential rate are considered as manufactured articles are:—

Refined sugar.

Glucose.

Molasses and extracts from sugar (*e.g.*, syrup).

Saccharin.

Manufactured tobacco.

Cinematograph films.

Motor cars, parts, accessories, etc.

Musical instruments, parts, accessories, etc.

Clocks, watches, etc.

All other dutiable goods are regarded as growth or produce. The term refined sugar means sugar which has passed through a refinery.

5. Where goods are manufactured in a bonded factory in Great Britain or Ireland from dutiable material shown to the satisfaction of the Commissioners of Customs and Excise to have been consigned from, and grown or produced in, the British Empire, the duty on the manufactured goods shall, to the extent to which they are shown to have been manufactured out of such material, be charged at the preferential rate.

This provision applies to sugar refiners and tobacco manufacturers who work in bond.

6. The preferential rate of duty must be claimed by the importer at the time of making entry. He is required in every case to substantiate the declarations on the entry that the goods were (1) consigned to the United Kingdom from, and (2) the growth, produce or manufacture of, a part of the British Empire, by means of a certificate of origin in the approved form. He must also, if called upon to do so by the Collector of Customs and Excise, produce any other evidence of origin, such as the supplier's invoice, bill of lading, etc.

7. Certificates of origin are in three prescribed forms, illustrated in Appendices D, E and F to this Notice. Each form comprises two separate certificates, viz.—

(i) A certificate that the dutiable articles in respect of which preference is claimed are the growth or produce (Appendix D) or the manufacture or refining (Appendices E and F) of a specified country in the British Empire This certificate must be given as regards Appendix D, by the overseas grower, producer or supplier,* and as regards Appendix E by the overseas manufacturer In the case of refined sugar, molasses and extracts from sugar, or manufactured tobacco, the amplified certificate (Appendix F), giving also the proportion of Empire-produced dutiable material, must be given by the overseas manufacturer or refiner.

Where, owing to local trade conditions, it is impracticable for certificates of origin in Form D to be signed by the up-country grower or producer, there is no objection to the certificates being signed by their accredited agents in the country of origin having the necessary knowledge of the facts, provided that (1) the certificate clearly shows that the agent is authorized to sign on behalf of the grower or producer, and (2) the certificate is a personal one signed by a responsible member of the issuing firm. This concession does not extend to agents for *suppliers*, nor to agents acting merely as carrying agents.

(ii) A supplementary certificate to be given by the actual exporter in cases where the grower, producer, manufacturer, refiner or supplier, who furnishes Certificates D, E or F, is not himself or by his agent the actual exporter and is not in a position to give the particulars of shipment, destination and consignee required to render the main certificate complete. This supplementary certificate is not however required to be given on Forms D, E and F, when the latter are given in conjunction only with Form FF (*see* paragraph 8), in which case its place is taken by a similar supplementary certificate on Form FF.

8. An additional form of certificate (Appendix FF) is required in conjunction with Forms D, E or F where the dutiable article in respect of which preference is claimed is an ingredient only of a complete composite article, and the latter therefore is liable to duty only by reason of containing the dutiable ingredient This additional certificate is to be given by the overseas manufacturer of the composite goods, as evidence that the dutiable articles, in respect of which preference is claimed and certificate D, E or F has been furnished by the grower, etc., have been used in the manufacture of the composite goods. Certificate E is not required from the manufacturer of the composite goods, as they are not dutiable nor entitled to preference in themselves but only by virtue of the dutiable ingredients they contain. The following examples are given by way of illustration. Manufactured cocoa powder is chargeable to duty in respect of the raw cocoa it contains, and Certificate FF should be given by the manufacturer, supported by Certificate D given by the grower, producer or supplier of the raw cocoa. Chocolate confectionery is chargeable in respect of the raw cocoa and the refined sugar it contains, and certificate FF should be given by the chocolate maker, supported by certificate D from the grower, producer or supplier of the raw cocoa, and Certificate F from the sugar refiner (either or both, according as preference is claimed for either the cocoa, the sugar or both). Jam and condensed milk (sweetened) are chargeable by reference to the sugar they contain, and Certificate FF should be given by the manufacturer, supported by Certificate F from the sugar refiner.

Form FF also contains a supplementary certificate to be given by the actual exporter where the manufacturer of the composite goods who furnishes Certificate FF is not himself or by his agent the actual exporter, and is not in a position to give the particulars of shipment, destination and

* By the term "supplier" is meant any person who, though not being the grower or producer, is the actual overseas owner of the goods at the time of export to the United Kingdom provided he has the requisite knowledge of the facts Such person should be careful to describe themselves on the certificate as "suppliers" and not as "exporters" merely.

consignee required to render the Certificate FF complete. Where this supplementary certificate is given on Form FF it is not to be given on the Form D, E or F relating to the dutiable ingredients

9. It is to be noted that Certificates D, E and F in all cases apply solely to the dutiable articles themselves (whether imported by themselves or as an ingredient), and that the title of any dutiable article to preference depends solely upon its fulfilling the conditions of Empire consignment and growth, production or manufacture in itself, and without reference to any other ingredients with which it may be associated in composite goods.

10. If composite goods contain more than one dutiable ingredient (*e g.*, cocoa and sugar in chocolates and confectionery) the appropriate Certificates D, E or F must be given separately in respect of each dutiable ingredient for which preference is claimed, but one Certificate FF may be given to cover all dutiable ingredients contained in one description of composite goods, provided the whole quantity of each such ingredient used in the composite goods is covered by a certificate D, E or F. If however any one dutiable ingredient comprises a proportion covered by a certificate D, E or F and entitled to preference and a portion not so covered or entitled, a separate certificate FF must be given for such ingredient, showing the percentage thereof covered by the certificate D, E or F The preferential reduction of duty will be regulated accordingly.

For example, if the raw cocoa used in the manufacture of imported Canadian chocolate confectionery is 60 per cent. of Trinidad growth and 40 per cent. of Venezuelan growth, separate certificates on Form FF must be given for the sugar and raw cocoa ingredients, and in the case of the latter the percentage covered by Certificate D must be stated. Preference in the proportion of 60 per cent will then be allowable as regards the portion of the duty charge attributable to cocoa.

11. If the Collector is satisfied by the production of the certificate or certificates he will forthwith admit the goods to entry as entitled to the preferential rate The Collector may in any case of doubt or of an incomplete or informal certificate, call for the production of invoices, bills of lading, or any such further evidence as he may require, but pending the production of such evidence he may, unless he has reason to suspect an attempt at fraud, allow delivery of the goods on deposit of the full rate of duty, subject to adjustment, provided satisfactory evidence of the title to the preferential rate is produced without undue delay In the case of goods entered to be warehoused, the Collector may allow the goods to be deposited in warehouse pending settlement of the rate of duty to which they may be decided to be liable.

12. The preferential rates apply in the case of dutiable goods entered for warehousing, or already in bond, before the 1st September 1919 (in the case of tea before 2nd June 1919), and the particulars of consignment and origin as recorded in the official accounts are usually accepted. The same rule is applied in respect of Empire and non-Empire goods blended or put together in bond before the 1st September 1919. In the case of blends, duty will be charged at preferential rates on the proportion of Empire goods shown to be contained therein It must be understood that where the official records are not sufficient to establish Empire consignment and origin the onus of proof in all cases rests by law on the importer.

13. In the case of Empire goods consigned to the United Kingdom which have been transhipped *en route* or have been shipped from a foreign port after overland transit from the Empire country of origin, the importer at the time of making entry will be required to produce the through bill of lading or railway consignment note from the country of production to the United Kingdom in support of the certificate of origin Where a through bill of lading or consignment note is not available, the invoice, local bill of lading or consignment note from the original point of origin and certificate of arrival or landing at, and exportation from, the port of transhipment will be required. Such certificates are to be signed by the proper Colonial or Foreign Customs Officer at the port of transhipment, and in the case of the latter the signature must be visaed by the British Consular Authority. It is essential to prove that the goods were consigned from a part of the Empire to the United Kingdom, and not to a foreign country from which they were subsequently re-consigned to the United Kingdom.

14. In the case of post parcels arriving from a part of the Empire, if the contents are not merchandise for sale and do not exceed £10 in value for

any one addressee, the following short form of certificate will, in the absence of ground for suspicion, be accepted as satisfactory evidence of origin for charging the preferential rate of duty, except in the case of manufactured tobacco, refined sugar, molasses and extracts from sugar:—

"The contents of this package are not merchandise for sale, and every dutiable article herein is the growth or produce, or, if a manufactured article, is to the extent of at least one-fourth of its present value *bona fide* the manufacture of (Empire country of origin)."

All other post parcels, including all parcels containing manufactured tobacco, refined sugar, molasses and extracts from sugar, etc., will be subject to the ordinary rules of evidence of origin applicable to merchandise generally as set out in the earlier part of this Notice.

15. The prescribed forms of Certificate of Origin are printed as Customs Sale Forms (Nos. 119 to 122), and may be obtained from H M. Stationery Office direct or through the usual agents

16. Copies of this Notice may be obtained at any Custom House or office of a Collector of Customs and Excise in Great Britain or Ireland.

STATUTORY RULES AND ORDERS, 1919.

IMPERIAL PREFERENCE

REGULATIONS AS TO THE PROPORTION OF VALUE RESULTING FROM LABOUR WITHIN THE BRITISH EMPIRE.

In pursuance of section 8 of the Finance Act, 1919, the Board of Trade hereby make the following regulations:—

(1) Save as hereinafter provided, goods shall not be deemed, for the purposes of section 8 of the Finance Act, 1919, to have been manufactured in the British Empire unless at least 25 per cent. of their total value is the result of labour within the British Empire.

(2) In the case of those classes of goods in respect of which an Order has been made by the Board of Trade under section 8, sub-section (2) of the Finance Act, 1919, no part of the goods shall be deemed to have been manufactured in the British Empire unless at least 5 per cent of the total value of the goods is the result of labour within the British Empire.

(3) Where a number of separate articles are included in one parcel or shipment, each and every article shall be considered separately for the purpose of calculating the proportion of value due to labour within the Empire.

(4) For the purposes of these regulations the total value of an article shall be its cost to the manufacturer at the factory or works and shall include the value of containers and other forms of interior packing ordinarily sold with the article when it is sold retail, but shall not include the manufacturer's or exporter's profit of the cost of exterior packing, carriage to port and other charges incidental to the export of the goods subsequent to their manufacture

(5) In calculating the proportion of value which is the result of labour within the British Empire there may be included under the head of labour the cost to the manufacturer of any materials of purely Empire origin entering into the composition of the article [including the interior packing specified in Regulation (4)], the cost of manufacture including wages, proportion of fuel, supervision and other factory expenses, and the cost of the labour of packing for retail sale.

The following may not be included in the proportion of value which is the result of Empire labour, namely, any materials or interior packings not entirely of Empire origin, manufacturer's profit or the profit or remuneration of any trader, agent, broker or other person dealing in the article in its finished condition, the expenses of placing the goods in outside packages for export and the cost of such packages, transportation charges, insurance and any other charges for services after the goods leave the place of production or manufacture.

(6) Any question arising on the interpretation of these regulations shall be referred to the Board of Trade whose decision shall be final.

Dated this 6th day of August 1919.

Mining and Geological Education.

RESOLUTION

Simla, the 11th September 1920

The provision of facilities in India for high grade instruction in mining and geology has for some years past engaged the attention of the Government of India and of the Governments of Bengal and Bihar and Orissa. In 1913 the Government of Bengal appointed a Committee under the Presidency of Sir Duncan McPherson to consider the question of mining education in Bengal and Bihar and Orissa. In 1914-15 another small Committee consisting of mining experts, after examining the system of mining education in England, submitted a report which was in general agreement with the proposals of the McPherson Committee The Indian Industrial Commission devoted considerable attention to the subject of mining and metallurgical education and dealt with it in detail in Chapter X of their Report. The subject was further examined by the Calcutta University Commission who have embodied their recommendations with regard to mining education in Chapter XLVI, Volume V, of their Report. The Government of India have also had the question under consideration in connexion with recruitment for the Indian Mines Department.

2. The existing provision in India for high grade instruction in geology is even less satisfactory than in the case of mining. The Public Services Commission recommended the early establishment in India of a School of Geology which would rank with similar institutions in Great Britain and give equal opportunities for the scientific study of the subject. The Government of India are aware that the demand for highly trained geologists in India though small is steadily increasing with the growing sense on the part of the educated classes of the opportunities available to them of taking a share in the utilisation of the raw materials of the country. The Secretary of State has recently approved of the view enunciated by the Government of India that the true solution (of the problem of the recruitment of Indians to the Geological Survey of India) is in the early creation of means of instruction such as will enable Indians to attain the necessary qualifications in India. He has further expressed the hope that necessary arrangements will be made without avoidable delay.

3 Under the Reform Scheme only central agencies and institutions for research and for professional or technical training, or for the promotion of special studies will be under the administration of the Government of India and it is only for such agencies and institutions that funds can be allotted from imperial revenues The provision of high class instruction in geology will obviously fall within this definition. With regard to mining education, it is true that the scheme formulated by the McPherson Committee had for its main object the supply of trained men for the industry in coal mining which is at present largely confined in India to the provinces of Bengal and Bihar and Orissa. It must, however, be recognised that coal mines, as well as metalliferous mines are now being developed in other provinces in India The Government of India consider that the proposed School of Mines although spoken of as a 'school" on the analogy of the terminology long ago adopted and perpetuated in the Royal School of Mines, London, should really be an institution of collegiate rank in which the highest form of teaching in the art of mining and its accessory sciences should be undertaken. It may, therefore, be assumed that there will be no other school like it in India in the near, or probably even distant future. Moreover on account of its unique nature as a high class specialised institution it should be available for students from all parts of the country. The improvement of the mineral supplies of the country is an imperial requirement affecting the general advancement of the country as a whole In view of these considerations the Government of India have decided that the proposed School of Mines should be an imperial institution

4 The location of the School of Mines was discussed by the Indian Industrial Commission in paragraphs 169 to 171 of their report The Commission came to the conclusion that, in view of the great desirability of keeping the mining industry in the closest possible relation with mining education, the school, as recommended by the McPherson Committee, should be established at Dhanbad in the province of Bihar and Orissa. The Calcutta University Commission have enumerated in paragraph 28 of Chapter XLVI of their report the many advantages that Calcutta possesses as the site for an advanced school of mining. The Government of India are inclined to think that the Calcutta University Commission did not fully realize the difficulties that are likely to be experienced by the staff of an institution in Calcutta in keeping touch with the industry of the coal-fields or with the scattered metalliferous mines of India and Burma.

5 There are obvious advantages in the establishment of a combined school of mines and geology. In a school of mines, geology must necessarily be one of the prominent subjects and can be developed on a full scale for geologists, whilst the junior courses will be used by those who will specialise in mining All students will naturally take the junior courses in the foundation sciences, including geology, but they will be allowed to specialise finally in either mining or in geology. It is believed that at the outset the number of students in either course will be limited, and a combined school will be much less expensive than separate schools of mining and geology The status and efficiency of the entire institution will be enhanced by the combination.

6. The Government of India have, therefore, decided to locate the proposed School of Mining and Geology at Dhanbad. As already stated the school will be imperial and consequently the Government of India will be responsible

for its maintenance and administration. The school will be open to students from all parts of British India and facilities will be provided for the training of youths from Indian States. It is hoped that provincial Governments as well as associations representing industries that will benefit from the teaching of the school will give liberal support in the way of scholarships, travelling fellowships and lectureships. The Government of India desire to make full provision for the adequate representation of provincial Governments and associations interested in the mining industry on the governing body of the school.

7. The following paragraphs represent the tentative views of the Government of India with regard to various details connected with the scope of the proposed school. They will be glad to receive the views thereon of Local Governments and of the Governing Body when it is constituted

(a) As already stated, one of the main objects of the school on the mining side will be to supply trained officials for the coal-mining industry, but instruction in metalliferous mining should also receive due attention

(b) In paragraphs 22 *et seq* of their report the McPherson Committee made recommendations for lower-grade instruction in coal-mining. The Government of India feel that institutions for lower-grade teaching, either in coal or in metalliferous mining, will receive due care from provincial Governments. Close contact is, however, desirable between the teachers of the evening classes in the coal-fields and the staff of the Imperial School in order that the former may be able to keep themselves *au courant* with the latest developments of their profession and to receive advice and information on technical matters.

(c) In their report the McPherson Committee dealt with the instruction of mine surveyors In Europe mine surveyors constitute an important branch of the mining profession and considerable training as well as technical skill is demanded of them. The Government of India feel doubtful whether a one-session course as recommended in the McPherson Committee's report will be sufficient for the adequate training of mine surveyors. At the same time it is open to question whether the requisite training can be usefully imparted at an institution devoted mainly to high grade instruction in mining and geology This is a point on which the Government of India will await the considered opinion of the governing body of the Dhanbad School as soon as it is constituted.

(d) The Government of India are separately considering the recommendation made in the report of the Indian Industrial Commission for the establishment of a metallurgical research institute at Sakchi or Jamshedpur. No definite decision has yet been reached, but they are of the opinion that, should an institution be eventually established there, it will have an entirely separate object and constitution from those of the Dhanbad School. Arrangements may then be made, if necessary, for the interchange of facilities between the two institutions for specialised research and advanced training.

8. The Indian Industrial Commission examined in paragraph 160 of their report the relations that should subsist between an institution like the proposed school at Dhanbad and the Universities. This point was also considered by the Calcutta University Commission in their report In view of the fact that expert opinion is much divided on the question of the affiliation of specialized institutions of this type to Universities, specially to Universities whose centres are situated at a distance from the institutions, the Government of India do not think that it is necessary at least in the initial stages, to affiliate the school at Dhanbad to any University. The Dhanbad institution must, however, maintain contact with the highest form of educational thought, methods and standards. The Government of India, therefore, think it desirable that the Universities of Calcutta and Patna

should be represented on the governing body of the Dhanbad School. They are also of the opinion that, in order that a diploma of the school may carry sufficient value and that its standard may be maintained at a high level, it is essential that, for the purposes of both theoretical and practical examinations in the school, external as well as internal examiners should be employed There should be specific provision for this purpose in the regulations framed for the school.

9. After careful consideration the Government of India are of the opinion that the governing body of the school should be constituted as below:—

(1) Director, Geological Survey of India (President)
(2) Chief Inspector of Mines.
(3) Principal of the College (*ex-officio* Secretary).
(4) One official appointed by the Government of Bengal.
(5) One official appointed by the Government of Bihar and Orissa.
(6) One representative of the Calcutta University.
(7) One representative of the Patna University.
(8) One representative of the Indian Mining Association.
(9) One representative of the Indian Mining Federation.
(10) One representative of the Mining and Geological Institute of India
(11) One representative of Burma Mining industry to be nominated for the present by the Government of Burma.
(12) One representative of Central Provinces and Berar Mining Association. } Alternately for three years
One representative of the South India mining industry to be nominated by the Government of Madras }
(13) and (14) Two non-officials to be nominated by the Government of India.

10 The Government of India are anxious that no time should now be lost in establishing the school on a working basis and they will be glad if provincial Governments and the different bodies referred to in the previous paragraph will kindly indicate their nominations to the governing body at an early date. The Government of India have already applied to the Secretary of State for an early recruitment of a Principal. The Government of India desire that the governing body, as soon as it is constituted, should formulate proposals for—

(*a*) buildings and equipment including class-rooms, laboratories, library, museum, hostels, residences for staff, out-houses, play grounds, etc

It may be stated that steps are already being taken for the acquisition of a suitable area of land in Dhanbad.

(*b*) Staff and the procedure for its recruitment.
(*c*) Courses of study, examinations, diplomas.
(*d*) Rules of admission, number in each class, fees, scholarships, etc
(*e*) The constitution of a Council of the staff and regulations providing for the respective powers of the Principal, the staff, the council and the governing body, including any sub-committees which they consider to be necessary for administrative purposes.

The Government of India also desire that the governing body should prepare as early as possible an estimate of the cost of the school both initial and recurring

ORDERED that the Resolution be communicated to all the Local Governments and Administrations, to the Education Department and the Financial Adviser (Industries), to the Director, Geological Survey of India, to the Chief Inspector of Mines in India, to the Vice-Chancellors of the Calcutta and the Patna Universities, to the Indian Mining Association, to the Indian Mining Federation, to the Mining and Geological Institute of India, and to the Central Provinces and Berar Mining Association.

ORDERED also that the Resolution be published in the *Supplement to the Gazette of India*.

F. R. R. RUDMAN,
Secretary, Board of Industries and Munitions.

1. Applications for appointment should be made on a printed form to be obtained from the Revenue Secretary, India Office, London, S W-1 Appointments are made as occasion may require by the Secretary of State for India on the recommendation of a Committee including one or more geologists Candidates must, if required, attend at the India Office, at their own expense, for a personal interview Every candidate must be a British subject, and at the time of his birth his father must have been, and must have since continued to be, a British subject; but power is reserved to the Secretary of State to make exceptions in special cases.

2. The age of candidates should ordinarily not exceed 25, but this rule may be relaxed in exceptional cases. Every candidate must be in sound bodily health, and will be required to satisfy the Medical Board at the India Office of his physical fitness in all respects to perform the duties of the Geological Survey, which involve considerable fatigue and exposure. Unmarried candidates are preferred.

3. Preference will be given to candidates who have served in His Majesty's Forces during the war. Completed years of combatant service will, subject to a maximum of four years, count for pay and promotion, but not for leave, while, as to pension, officers retiring after 20 and less than 25 years' service will be allowed to count a maximum of two years and those retiring after 25 years' service a maximum of three years

4. Besides a good general education, a sound education in geology is essential; a University degree and a knowledge of French or German will be regarded as important qualifications; and certificates of good character will be required. Candidates must also have had one or two years' practical training in mines or in technical laboratories, as may be required by the Government of India.

The overseas allowance is admissible only in the case of officers of non-Indian domicile.

A local allowance of Rs 150 per mensem is granted to the officer doing the work of Palæontologist at headquarters. The officer holding the appointment of Museum Curator receives special Presidency house-rent allowance of Rs 150 per mensem

No allowance of the nature of exchange compensation is given.

6. Pay commences from the date of arrival in India. Travelling allowances regulated by the rules applicable to the Department are allowed at a rate calculated to cover actual expenses of tentage and locomotion.

7 A first-class passage to India is given subject to the condition that its cost shall be refunded in the event of an officer resigning the service on grounds other than certified ill-health before the expiry of the period of probation.

8. First appointments are probationary for two years, at the end of which time the probationer, if found qualified and retained in the Department, will reckon his service for leave and pension from the date of arrival in India. If, on the expiry of the period of probation, the officer's service is determined, or if he is compelled by certified ill-health to resign the service before such expiry, he will be provided with a free first-class passage back to England.

9. Under ordinary circumstances all Assistants, unless they have special claims from previous training and experience elsewhere, will enter the Department in the lowest class. The first increase of pay takes effect from the date on which the Assistant shall be declared to have passed the ordinary examination in the language of the country by the first or lower standard, according to the general rules provided for such examinations.

This annual increase will in all cases be granted only on the certificate of the Head of the Department that the Assistants so recommended have fully deserved it by the intelligence and zeal with which their duties have been performed.

10. Promotion to the grade of Superintendent will depend on qualifications and merit and on the existence of vacancies in that grade. While local experience and training must always hold a very prominent place in estimating the position or the promotion of Assistants, it must be distinctly understood that mere seniority of service, unaccompanied by proved ability and steady devotion to duty, gives no claim to promotion into the higher grades of the staff of the Survey.

11. The leave, leave allowances, and pensions of officers of the Department are governed by the provisions of the Civil Service Regulations applicable thereto. These regulations are liable to be modified by the Government of India from time to time. A copy of an abstract of them may be obtained from the Revenue Secretary, India Office, London, S.-W.-1.

I.—A register of candidates will be kept from which not less than three candidates for each vacancy will be nominated by the Government of India from time to time as vacancies are expected. Only candidates so nominated will be entitled to compete.

V.—The Government of India reserve an absolute discretion, not only in regard to the selection of persons to be entered on the register of candidates, but also as to the nomination of candidates to compete at the examination. It must be clearly understood that registration of a candidate's name does not, in any way, imply that he will be nominated for admission to examination.

VI.—The name of a registered candidate will be struck off the register when he has failed in two examinations It will also be liable to be struck off if he has been twice nominated and has failed to appear at the examination unless on one or both occasions

VII.—A candidate nominated for admission to one examination will not be admitted to a later examination unless again nominated.

VIII.—The age of a candidate, on the first day of August of the year in which the examination is held, must not be less than twenty-two and not more than twenty-five years A candidate, who has been continuously in Government employ since before the age of 25, may, however, at the discretion of the Government of India, be allowed to compete at the examination up to the age of 30, provided that he is satisfactorily recommended by the Head of his Department.

IX.—A nominated candidate, before appearing at the examination, must produce a certificate in the annexed form by a Commissioned Medical Officer or by a Medical Officer in charge of a Civil Station. A candidate, who obtains a second nomination, must produce a fresh Medical Certificate.

CERTIFICATE.

I do hereby certify that I have examined A. B., a candidate for employment in the Indian Finance Department, and that I can not discover that he has any disease, constitutional affection or bodily infirmity, unfitting him, or likely to unfit him, for the public service in any part of India.

X.—Such candidate must also, before appearing for examination, produce a certificate of age from the officer in charge of the district in which his family reside, or, if they reside in a Presidency town or a Native State, from the Presidency Magistrate or Political Agent, respectively. To obtain this certificate the date and place of the candidate's birth must be proved before the district officer, Presidency Magistrate or Political Agent, as the case may be, by documentary evidence, supplemented, where this is not conclusive proof, by statements of relatives and others on oath or solemn affirmation

XI.—Nominated candidates will be examined in the subjects described in the schedule attached to this Resolution. No candidate will be admitted to the Department who fails to show a competent knowledge of the compulsory subjects, and the Government reserve the right of declining to make any appointment when no candidate reaches a high standard of proficiency.

XII.—The examination will be mainly by written questions and answers. The questions will be prepared, and the examination conducted, in such manner as the Governor-General in Council from time to time directs.

XIII.—Some months before an examination is to be held, its date and place, and the conditions of examination, will be notified in the *Gazette of India*, and the number of vacancies which the Government expect to fill on the results of the examination, will, at the same time, be stated.

XIV.—Subject to the above conditions, candidates will be appointed to the posts thrown open to competition according to their order of merit at the examination.

II.—PROCEDURE.

A.—The first round.—(Preliminary Enumeration.)

1. Beginning from the 10th of February 1921, you will visit every house in your block to which a separate number has been affixed, in the order in which the houses are entered in your block list, and fill up the columns in the schedule for all persons who ordinarily live in or take their meals from the house. Even if they are temporarily absent such persons should be entered if they will be back by the 18th March. Visitors should not be entered if they will have left before that date.

2. You must carefully study the instructions given above for filling in the columns of the schedule and also the specimen schedule on the cover of this book which contains a number of entries illustrating the rules. You should consult your supervisor whenever you are in doubt as to the proper entry.

3. If directed to do so by your supervisor, you will make a rough draft on plain paper, and you will not copy it in your book until it has been passed by him.

4. If the entry for any person in any of the columns of the schedule be the same as that for the person entered on the line above, you must repeat the entry. You must not write the word "ditto" or make dots.

5. You must have completed all the entries in your block by the 1st of March 1921.

B.—The second round.—(Final Enumeration.)

6. On the evening of the 18th March at the time of lighting lamps, you will take this book as already filled in and again visit every house in your block in order. You must see that you are yourself enumerated in the house where you are stopping.

7. You must summon the chief member of each family and read over to him one by one the names of the members of his household entered in the schedule, asking him, as you read each name, whether the person is present in the house or not. You must also ask him particularly whether any fresh persons have come or any child has been born. You must strike out the entries for persons who are not present, and fill up the form for any person new in the house who was not there when the first visit was made, such as guests, infants newly born and others You are to consider as present all persons living in or taking their meals from the house, even though any of them may be out fishing or watching in the fields or the like.

8. The fresh entries mentioned in the last rule must be made on the blank pages at the end of your book In each case you will enter the number of the house to which the fresh entries relate, writing under it the word "continued."

9 You must make no alteration whatever in any entry against the name of any person unless you have to strike out the entries altogether, because he or she is no longer present. When you strike out a person, you must draw a line completely through all the entries following that person's name and not merely through column 3.

10. Whilst going on the second round, you must visit every house marked "empty" in your book, to see whether any person is then living there.

11. You must also go to the dharmasalas, serais, encampments and landing places, where travellers rest for the night, and enter all particulars in the schedules for the way-farers, boatmen, pilgrims, and others you may find there, and strike out the entries already made against persons who are not then present. You should ascertain from the village watchman whether any members of a wandering tribe have come to your block. If so, you must go and enumerate them in the manner prescribed above

12. If any house-holder in your block has been given a separate schedule, you must collect it on the morning of the 19th March and, after seeing that columns have been duly filled according to the rules, you must stitch it into your book, next to the last schedule filled up by you.

13. You will then (on the morning of the 19th March) go without any delay to the place appointed by your Supervisor and after your book has been inspected by him, you will enter in the abstract, printed on the inside of the cover, the number of occupied houses and persons, male and female, in your block.

14 According to the Census Act, every person is legally bound to furnish you with such information as is necessary for filling up the schedule, but you are forbidden to ask for any information not required for the purposes of the Census, *as for instance the amount of any person's income* or to disclose to any unauthorised person any information given. Any enumerator extorting money on any pretext connected with the Census renders himself liable to punishment under the Census Act or the Penal Code. Entries in this schedule are confidential and cannot be used hereafter in any legal proceedings in the Civil Courts.
